It is in honour of the silver jubilee of Most Rev. Anthony J. V. Obinna ' s episcopacy that this book is put together in this first volume titled Emerging Conversations on Theofiliation: Essays in Honour of Archbishop Anthony J. V. Obinna. This volume discusses and enlarges insights inherent in Archbishop Obinna ' s theological thinking on theofiliation. Therefore, the contributors to this volume critically examine his idea of theofiliation from their areas of speciality as a further exploration of this theological term. The willingness of the contributors has resulted in a collection that envisage the eclectic and heterogeneous scholarly vision of its honouree. Besides, the contributors to this maiden edition encompass both illustrious theologians and promising researchers in theology, philosophy, psychology, and management. The themes discussed by the contributors are grouped into biblical/comparative study, systematic/pastoral, ethical/management, philosophical/political, and anthropological issues. The enriching and diverse collections of this volume have five thematic sections of nineteen chapters that theofiliation brings together. " This Festschrift in honour of Amarachi Obinna is a compendium of usable knowledge. The authors have dealt with various themes largely inspired by the theology and practice of the archbishop. This conviction leads to the reflections on theofiliation, the reinGodment of all creation. The Festschrift is truly a treasure " (Prof. John Obilor, Imo State University Owerri). " This book is an insightful reading which will serve as an inspirational theological wellspring for emerging scholars engaged in articulating a robust African contextual theology to which it breathes fresh air. The spirit of dynamism in Archbishop Obinna ' s novel brainchild of theofiliation is manifested in its applicability to wide-ranging academic disciplines " (William Odeke Owire, KU Leuven).

Casey McDaniel war noch nie in seinem Leben so nervös gewesen. In 10 Minuten sollte DAS Meeting beginnen, und Casey hatte allen Grund zur Annahme, dass sein Auftritt während der nächsten 2 Stunden über seine weitere Karriere, seine finanzielle Zukunft und das Schicksal seiner Firma entscheiden würde. "Wie konnte mein Leben nur so rasend schnell völlig aus den Fugen geraten?", fragte er sich. In seinem Bestseller bietet Patrick Lencioni ein Heilmittel für das wohl schmerzhafteste und dennoch unterschätzteste Problem im heutigen Geschäftsleben: schlechte Meetings. Und was er vorschlägt, ist simpel und revolutionär zugleich. Der Gedanke an Meetings verursacht bei dem meisten Managern und Mitarbeitern Bauchschmerzen. Aber sie sind nun mal ein unverzichtbarer Bestandteil der Arbeit. Anhand einer Leadership-Fabel, der dazugehörigen Theorie und praktischen Tipps zeigt Lencioni, wie Meetings von einer anstrengenden und nervenaufreibenden Angelegenheit zu produktiven, fesselnden und energiegeladenen Ereignissen werden können. In der Fabel begegnen wir dem CEO Casey McDaniel, der die katastrophale Meetingkultur in seinem Unternehmen unbedingt verbessern muss, aber nicht weiß wie. Ihm hilft schließlich ein respektloser, junger Berater, Will Petersen, mit einigen unkonventionellen und radikalen Ideen zur Lösung des Problems (Meetings müssen dramatischer und konfliktgeladener sein, um nicht zu langweilen, und Meetings sollten kontextbezogene Strukturen aufweisen). Das Buch ist ein Blueprint für Führungskräfte, die endlich wissen wollen, wie sie ihre Meetings optimieren können, damit Zeit sparen und Frustration verhindern sowie eine Kultur voller Energie, Leidenschaft und Engagement schaffen können.

Book Description: Management: The New Competitive Landscape, by Bateman and Snell, has consistently discussed and explained the traditional, functional approach to management-through planning, organizing, leading, and controlling. But the 6th edition goes a step further, in defining and highlighting with icons, four "bottom line" practices that managers and companies must deliver to their customers: Innovation, Speed, Quality, and Cost. Bateman and Snell's: Management: The New

Competitive Landscape, 6th edition has always been about a series of "firsts": first to have a chapter on diversity, first to devote a section to the environment, and first to relate a "bricks and clicks" theme to explain the challenges of managing in a New Economy. This new edition is no exception with the expansion of such timely topics as ethics and technology. Management: The New Competitive Reality, 6th edition shows how managers must utilize the classic principles of management in combination with the practices of the "New Economy" to achieve managerial goals. By reinforcing these new business practices in context with the functional approaches, the authors deliver a unique theme amongst all principles of management texts-how to manage in ways that deliver results.

What does it take to manage an organization to success? No matter what industry you are in, an organization is primarily a group of people. This book focuses on that ever-important human element. In the rush to get 'lean', many organizations focus solely on tools for increasing productivity, but where do these tools come from? In this book, Collin McLoughlin and Toshihiko Miura look back on their decades of international consulting experience to examine how organizations around the world have transformed on a cultural level by respecting the people who work within them and leveraging their creativity to solve problems. As our workforce becomes more knowledgeable, skillful, and more perceptive of their needs and wants as employees, the ability to reach the true potential of an organization becomes more and more difficult. Managers must look at each individual element of an equation like this in order to fully understand how to achieve an answer. They must begin to answer more focused questions, such as: 1. How productive is the existing work climate and culture? 2. How do employees, as individuals, navigate the existing work climate? (How do they deal with day-today issues with each other?) 3. Where and how are individuals and their work processes assessed? 4. What obstacles do employees face every day, and are they empowered to fix these obstacles? 5. What role does leadership play at each level of the organization? (Looking at the organization in layers of management.) To address these challenges, this book focuses on three main aspects of leadership and management: 1. Addressing and Improving the Perspective of Management -- The ideas presented in this book are not limited to a certain industry or field of work, but can be applied in any setting because they speak to a universal human element. 2. Exploring and Improving Work Climate -- Organizations are social entities, operating within their own controlled environment. This book will explore the factors that contribute to, and encourage, a positive work climate. 3. Observing and Eliminating Wasteful Work Processes -- Observing wasteful activities and work processes requires a refined perspective. The case studies presented illustrate the How and Why to help refine expertise. This will also lead to the joy and benefits
