In reality, however, it is straightforward to train to improve one's performance in these puzzles. The Non-Verbal Ninja Training Course from Eureka! Eleven Plus Exams is a three-part series of training books with several features to maximise the skill boost they provide to students. Full explanations are given immediately after each block of questions Visual explanations are provided where these are easier to understand The early questions of each type are easy, testing only one or two rules Challenging, broad-ranging questions are soon introduced Each question teaches an additional skill or reinforces a core skill You are not told in advance exactly what the rule will be, so you build confidence in identifying the rule for yourself - a crucial skill for exam success The series of books, studied in sequence, covers the spectrum of types of format of questions and of the types of rule being tested. Some rules can be tested in many different settings. Dedicated practice and, more importantly, careful review of the explanations of questions that turned out to be difficult, is the key to success in Non-Verbal Reasoning.

Pupils need experience in deciding and documenting their answers efficiently. They need total familiarity with the spectrum of multiple choice questions, and with the layout of question papers and response sheets. The Eureka! 11+ Confidence series of Exam Papers provides: Question papers laid out in modern, multiple-choice format, as used by CEM Answer sheets laid out in modern format (in places requiring digit-by-digit entry) Full answers with explanations Supplementary books giving very detailed methods, tips and tricks on the more challenging aspects of Numerical Reasoning In supporting your child's preparation for the exam: Do as much exam paper practice as possible. Variety helps retain attention. Cut out the multiple choice answer sheet and use it to record the answers. Maximizing authenticity now minimizes exam-day anxiety. Do these practice exams formally: seated alone, away from television and radio. Immediately afterwards, encourage the pupil to mark their own work. Insist on discussing the questions which were not answered correctly. Do not set aside any errors as "silly mistakes". All mistakes are silly. The key to 11+ is attention to seemingly small details. Doing exam papers is a learning opportunity. Underline the importance of discovering how errors were made and how they may be prevented in future. Tips, tricks and (most of all) systematic approaches for avoiding the major traps at 11+ are given in the associated "Eureka! Challenging Maths and Numerical Reasoning Exam Questions for 11+ " series of books. Thoughtful support from parents can be crucial for pupils in the run-up to examinations. Use the Eureka! Practice Exam Papers and Numerical Reasoning training books to help them reach their full potential.
