Charismatic Leadership and Social Movements Provides historical coverage of the United States and
Canada from prehistory to the present. Includes information abstracted from over 2,000 journals
published worldwide.

Bulletin of the Atomic Scientists Collection of articles on the economic theory of Jan Tinbergen, b.
1903, Dutch economist.

Aristocracy, Temperance and Social Reform The visionary achievements of Isabella (Isabel) Caroline
Somerset (Lady Henry Somerset), like the temperance cause she led, have undeservedly faded into
obscurity. By her contemporaries she was feted for her social activism, and at the time of her death in
1921, Isabel Somerset's vigorous reform efforts were acclaimed by humanitarian, political and social-
reform organizations and the labour movement. She was internationally recognized for her
contributions to the temperance cause, social reform and women's rights. The failure of her traumatic
marriage to Lord Henry Charles Somerset after revelation of his homosexual affairs, and the ensuing
child-custody battle and consequent ostracism by Society, combined with a profound religious
experience, effected her metamorphosis from an aristocratic socialite into a temperance and social
reform activist. Beginning with local temperance and philanthropic work, Isabel Somerset progressed
to become president of the British Women's Temperance Association, which she gradually
transformed from a single-issue organization into one committed to women's rights and a broad range
of social initiatives; the BWTA became a potent pressure-group force in the politically influential, late-
nineteenth-century temperance movement. Discouraged by the existing punitive, futile methods used

Read Online Charismatic Leadership And Social Movements The Revolutionary Power Of Ordinary Men And Women International Studies In Social History modernh.com

to combat alcoholism, she founded a farm colony for female inebriates and employed a pioneering rehabilitation programme based upon therapeutic treatment and life-style changes. Through her close co-operation with American temperance icon Frances Willard, Isabel Somerset strengthened the bonds between the Anglo-American and international temperance and women's movements. Isabel Somerset's activism did not go unchallenged. In 1893 she successfully overcame the BWTA social conservatives' attempts to unseat her, and thereafter expanded the membership to hitherto unprecedented levels. In 1897-8 her position on state-regulated prostitution in India created a controversy which reverberated beyond the Association to encompass its sister organizations and proved temporarily detrimental to Somerset's reputation and credibility. Isabel survived this disputation, retaining her presidency and succeeding Willard as president of the World's Woman's Christian Temperance Union following her death in 1898. Isabel Somerset was a devout Christian, compassionate humanitarian, temperance activist, committed social reformer and women's rights campaigner, a charismatic leader and eloquent orator. Her roles of reformer and women's advocate, as revealed anew in the pages of this biography, place her in the pantheon of notable Victorian female reformers.

United States Political Science Documents Much of the writing on charisma focuses on specific traits associated with exceptional leaders, a practice that has broadened the concept of charisma to such an extent that it loses its distinctiveness – and therefore its utility. More particularly, the concept's relevance to the study of social movements has not moved beyond generalizations. The contributors to this volume renew the debate on charismatic leadership from a historical perspective and seek to illuminate the concept's relevance to the study of social movements. The case studies here include such leaders as Mahatma Gandhi; the architect of apartheid, Daniel F. Malan; the heroine of the Spanish Civil War, Dolores Ibaruri (la Pasionaria); and Mao Zedong. These charismatic leaders were not just professional politicians or administrators, but sustained a strong symbiotic relationship with their followers, one that stimulated devotion to the leader and created a real group identity.

Max Weber's Vision of History Illustrations: 18 Figures Description: The book highlights the kaleidoscopic nature of the Indian society and the development of the caste system as an organic response to the requirements of this multiple society. The origin, life and legacy of the Ksatriya caste are the central theme. The compelling charting of the romantic and adventurous journey of this caste through the various periods of Ancient Indian History illuminates their iconic life. The role of the Ksatriyas as the ruling class, their relationship with other castes, their socio-economic and political activities and liabilities have been chronicled in detail bringing history to life. Special reference to the position of the Ksatriya women adds a new dimension to the book. The book gives a better understanding of such fundamental topics as rise to power, charismatic leadership, theories of kingship, the position of women, socio-economic interface and decline of the supreme power associated with this enigmatic caste. The book is a synthesis of knowledge and insight from many sources hence offers a comprehensive picture.

Defiant Populist

Power Without Force Examines how charismatic leaders such as Mahatma Gandhi, Adolf Hitler, and Franklin Roosevelt have come into power and produced great changes in their countries

Men of Silk: The Hasidic Conquest of Polish Jewish Society CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences. The database provides abstracts of journal articles and citations to book reviews drawn from over 1,800+ serials publications, and also provides abstracts of books, book chapters, dissertations, and conference papers.

The Karajan Dossier This text presents the foundations for the theory of leadership. Based on a framework divided into building blocks, various concepts of leadership such as values, change, power and structure are explained and analyzed, and ways of incorporating them into school management are addressed.

Charisma in Politics, Religion and the Media Examines the history of the Italian anarchist movement in New London, Connecticut. In the early twentieth century, the Italian American radical movement thrived in industrial cities throughout the United States, including New London, Connecticut. Facing toward the Dawn tells the history of the vibrant anarchist movement that existed in New London's Fort Trumbull neighborhood for seventy years. Comprised of immigrants from the Marche region of Italy, especially the city of Fano, the Fort Trumbull anarchists fostered a solidarity subculture based on mutual aid and challenged the reigning forces of capitalism, the state, and organized religion. They began as a circle within the ideological camp of Errico Malatesta and evolved into one of the core groupings within the wing of the movement supporting Luigi Galleani. Their manifold activities ranged from disseminating propaganda to participating in the labor movement; they fought fascists in the streets, held countless social events such as festas, theatrical performances, picnics and dances, and hosted militant speakers, including Emma Goldman. Focusing on rank-and-file militants—carpenters, stonemasons, fishermen, housewives—rather than well-known figures, Richard Lenzi offers a microhistory of an ethnic radical group during the heyday of labor radicalism in the United States. He also places that history in the context of the larger radical movement, the Italian American community, and greater American society, as it moved from the Gilded Age to the New Deal and beyond. "This book is the product of some wonderful and groundbreaking historical detective work, and it succeeds in combining two seemingly incongruent genres of history: the local/neighborhood study and the history of transnational migration and radicalism. The result is one of the best and most detailed histories of a single anarchist community written to date. In addition, it makes new and important contributions to the history and background of the Sacco-Vanzetti case, Prohibition, and the history of fascism and anti-fascism in the United States. Scholars and lay readers interested in any of these areas will find this work indispensable." —Kenyon Zimmer, author of *Immigrants against the State: Yiddish and Italian Anarchism in America*

Bounded Choice The untold story of Hamid Karzai's dramatic rise to the presidency of Afghanistan and the problems he and his country face In 2004, Hamid Karzai was elected president in Afghanistan's first-ever democratic election. Today, criticized for indecisiveness and targeted for assassination by extremists, President Karzai struggles to build on the country's modest post-Taliban achievements before civil unrest undermines his government. Now, author Nick Mills draws on months of candid personal interviews with the charismatic Afghan president to offer a revealing portrait of the figure known to millions by his familiar uniform of karakul cap and long green chappan. Timely and compelling, Karzai tells the fascinating story of a unique leader with a keen

intellect, a natural gift for storytelling, and a presidency in peril.

A Voice That Spoke for Justice New religious movements—or so-called “cults”—continue to attract and mystify us. While mainstream America views cults as an insidious mix of apocalyptic beliefs, science fiction, and paranoia, with new vehicles such as the World Wide Web, they are becoming even more influential as the millennium approaches. Len Oakes—a former member of such a movement—explores the phenomenon of cult leaders. He examines the psychology of charisma and proposes his own theory of the five-stage life cycle of the two types of prophets: the messianic and the charismatic.

Routledge International Handbook of Charisma Made the best of its meager assets in cotton, gold, and livestock. The country is also fortunate in its relative lack of ethnic conflict, and the several religions practiced - Islam, Christianity, and animism - peacefully coexist. Burkina has earned mixed reviews on the international stage, however, fighting two wars with Mali and supporting Taylor's rebels in the Liberian civil war. In this textured introduction to Burkina Faso, Pierre Englebert highlights the.

The Third Reich This wide-ranging collection explores the complex relationships between religious sects and contemporary Western society and examines the controversial social, political, and religious issues that arise as sects seek to pursue a way of life at variance with that of other people. Wilson argues that sects—often subject to negative theological and moral judgements--can be understood only as social entities and as such require a scientifically neutral and unbiased approach to explore their emergence and persistence. He traces the growth and expansion of various movements, including the Unification Church, the Scientologists, Jehovah's Witnesses, and the Exclusive Brethren, relating them to their social context, and indicates the sections of society from which their support is likely to come.

Jean Grave and the Networks of French Anarchism, 1854-1939 *The Bulletin of the Atomic Scientists* is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world.

America, History and Life "Brilliant, painful, enlightening, tearful, tragic, sad, and funny, this photo-essay book is at its core about healing, and about the social justice work that still needs to be done in the era of hip-hop, Black Lives Matter, and the historic presidency of Barack Obama." -- Kevin Powell, author of *The Education of Kevin Powell: A Boy's Journey into Manhood* "A brilliantly conceived volume. Bryan Shih and Yohuru Williams demonstrate why the Panthers' story-its lessons and failures-even fifty years after its founding remains key to understanding national and international struggles for freedom and justice today." -- Cheryl Finley, professor and director of visual studies, Cornell University Even fifty years after it was founded, the Black Panther Party remains one of the most misunderstood political organizations of the twentieth century. But beyond the labels of "extremist" and "violent" that have marked the party, and beyond charismatic leaders like Huey Newton, Bobby Seale, and Eldridge Cleaver, were the ordinary men and women who made up the Panther rank and file. In *The Black Panthers*, photojournalist Bryan Shih and historian Yohuru Williams offer a reappraisal of the party's history and legacy. Through stunning portraits and

Read Online Charismatic Leadership And Social Movements The Revolutionary Power Of Ordinary Men And Women International Studies In Social History modernh.com

interviews with surviving Panthers, as well as illuminating essays by leading scholars, The Black Panthers reveals party members' grit and battle scars-and the undying love for the people that kept them going.

Hitlers willige Vollstrecker This biography charts the life and fascinating long militant career of the French anarchist journalist, editor, theorist, writer, campaigner and educator Jean Grave (1854-1939), from the run up to the 1871 Paris Commune to the eve of the Second World War. Through Grave, it explores the history of the French and international anarchist communist movement over seven decades: its "heroic period" (1880-1890s), shaken by terrorist violence and intense repression, the emergence of syndicalism, national and international solidarity campaigns, the divisions over the First World War, and post-war division and relegation. Through Grave, a "sedentary transnationalist," the study investigates the networked and transnational organisation of the anarchist movement, addressing the paradox of Grave's international influence alongside his deep rootedness in Paris by emphasizing the movement's global print culture and staggering circulations.

The Drama of Leadership This book shows how a charismatic leader preyed on ordinary Germans yearning for stability in a time of economic, political and social crisis. It goes on to give a complete and up-to-date analysis of The Third Reich; its implications for and place in history.

Prophetic Charisma Decolonization after World War II led to a significant global increase in the number of states. Each new nation was born with high expectations. But these hopes were soon eroded by the ineffectiveness and capriciousness of many of the new regimes. In many states military juntas have become the order of the day, and even where juntas have not taken power, political differences have repeatedly degenerated into violent exchanges that do not readily lend themselves to political settlement. Not only the new states have suffered from these problems; indeed, political solutions to conflict have become depressingly conspicuous by their absence. Against this background, the last decade has seen a resurgence of interest in evaluating the political capacity or strength of modern nation-states. In Power without Force, Robert Jackman argues that political capacity has two broad components: organizational age and legitimacy. Thus, it is essential to focus both on institutions conceived in organizational terms and the amount of compliance and consent that leaders are able to engender. The emphasis on each reflects the view that political life centers on the exercise of power, and that, unlike physical force, power is intrinsically relational. Although all states have the capability to inflict physical sanctions, their ability to exercise power is the key element of their political capacity. Drawing on a wide range of studies from political science, sociology, and political economy, Power without Force redirects attention to the central issues of political capacity. By stressing that effective conflict resolution must be addressed in political terms, this volume underscores perennial issues of governance and politics that form the heart of comparative politics and political sociology.

Tinbergen and Modern Economics Hasidism, a kabbalah-inspired movement founded by Israel Ba'al Shem Tov (c1700-1760), transformed Jewish communities across Eastern and East Central Europe. In Men of Silk, Glenn Dynner draws upon newly discovered Polish archival material and neglected Hebrew testimonies to illuminate Hasidism's dramatic ascendancy in the region of Central Poland

Read Online Charismatic Leadership And Social Movements The Revolutionary Power Of Ordinary Men And Women International Studies In Social History modernh.com

during the early nineteenth century. Dynner presents Hasidism as a socioreligious phenomenon that was shaped in crucial ways by its Polish context. His social historical analysis dispels prevailing romantic notions about Hasidism. Despite their folksy image, the movement's charismatic leaders are revealed as astute populists who proved remarkably adept at securing elite patronage, neutralizing powerful opponents, and methodically co-opting Jewish institutions. The book also reveals the full spectrum of Hasidic devotees, from humble shtetl dwellers to influential Warsaw entrepreneurs.

The Black Panthers Diese Sammlung von Schriften aus der Zeit von 1970 bis 1990 des brasilianischen Pädagogen Paulo Freire (1921-1997) gibt einen Einblick in die Grundlagen und Prinzipien seiner Bildungsarbeit auf der Basis der Pädagogik der Befreiung. In den ausgewählten Texten werden nicht nur pädagogische Probleme und inhaltlich-methodische Fragen der Bildungsarbeit thematisiert. Sie enthalten ebenso Analysen und Bewertungen von Politik, Kultur, Religion, Ethik und Veränderungsmöglichkeiten von Gesellschaft - eine Erweiterung, die sich gegen eine Vorstellung wendet, Pädagogik sei von Gesellschaft und Politik losgelöst zu behandeln. Scharfsinnig hat Freire u.a. die verheerenden Folgen des Neoliberalismus für Individuum und Gesellschaft analysiert und zum widerständigen Denken und Handeln ermuntert. Eine Auswahl repräsentativer alter und neuer Texte von Paulo Freire: Wer sie zur Hand nimmt, entdeckt rasch, dass uns dieser brasilianische Pädagoge nicht nur für die Theorie und Praxis unserer Erziehungsarbeit, sondern für unser Überleben Entscheidendes zu sagen hat. Prof. Dr. Ulrich Becker, Universität Hannover

Ideology, Legitimacy and the New State

Rebell zwischen Traum und Tat This is a comparative analysis of the dominant ideologies and modes of legitimization in communist and post-Communist Serbia and Croatia. The aim of the book is to identify and explain dominant normative and operative ideologies and principal modes of legitimization in these three case studies. The book is based on the content analysis of manifestos of the ruling parties in post World War II Yugoslavia (League of Communists), post-Cold War Serbia (Socialist Party of Serbia) and Croatia (Croatian Democratic Union), as well as on the content analysis of the school textbooks and editorial of government-controlled newspapers published in the same period. By analyzing the way state apparatuses work, the author aims to demonstrate the crucial role that ideology plays in the underpinning of the identity transformation in these three societies. At the same time, an attempt is made to develop an adequate theoretical model of ideology and political legitimization that would not only help explain the extraordinary situation of these three cases but would also contribute to the general theory of ideology and legitimization.

Facing toward the Dawn

Burkina Faso Few statesmen in history have inspired the imagination of generations of Germans more than the founder of the Kaiserreich, Otto von Bismarck. The archetype of charismatic leadership, the Iron Chancellor maintained his pre-eminent position in the pantheon of Germany's political iconography for much of the twentieth century. Based on a large selection of primary sources, this book provides an insightful analysis of the Bismarck myth's profound impact on Germany's political culture. In particular, it investigates the ways in which that myth was used to undermine parliamentary democracy in Germany after the Great War, paving the way for its replacement by

Read Online Charismatic Leadership And Social Movements The Revolutionary Power Of Ordinary Men And Women International Studies In Social History modernh.com

authoritarian rule under an allegedly 'Bismarckian' charismatic leader, Adolf Hitler. As one of the most powerful weapons of nationalist agitation against the Weimar Republic, the Bismarck myth was never contested. The nationalists' ideologically charged interpretation of Bismarck as the father of the German nation-state and model for future political decision-making clashed with rivaling - and thoroughly critical - democratic and communist perceptions of the Iron Chancellor. The quarrel over Bismarck's legacy demonstrates how the clash of ideologies, particularly between 1918 and 1933, resulted in a highly political fight for the 'correct' and universal interpretation of the German past. Essential reading for anyone interested in modern German history, this book sheds new light on the Weimar Republic's struggle for survival and the reasons for its failure.

Political Leadership The Routledge International Handbook of Charisma provides an unprecedented multidimensional and multidisciplinary comparative analysis of the phenomenon of charisma – first defined by Max Weber as the irrational bond between deified leader and submissive follower. It includes broad overviews of foundational theories and experiences of charisma and of associated key issues and themes. Contributors include 45 influential international scholars who approach the topic from different disciplinary perspectives and utilize examples from an array of historical and cultural settings. The Handbook presents up-to-date, concise, thought-provoking, innovative, and informative perspectives on charisma as it has been expressed in the past and as it continues to be manifested in the contemporary world by leaders ranging from shamans to presidents. It is designed to be essential reading for all students, researchers, and general readers interested in achieving a comprehensive understanding of the power and potential of charismatic authority in all its varieties, subtleties, dynamics, and current and potential directions.

The Bismarck Myth

Women of Fire and Spirit Questioning many of the traditional assumptions found in discussions of ethics in international relations, Warner introduces a new way of thinking about moral responsibility and invites reflection on the nature of communities and states.

The K?atriyas in Ancient India Iran is the only Middle Eastern state to have preserved its national identity through the upheavals of Arab, Turkish and Mongol invasions. It is heir to the richest culture in the Middle East: a culture that extends far beyond the state's political boundaries. This book, first published in 1987, traces elements of continuity in Iranian society from pre-Islamic times to the turmoil of the Islamic Republic. The author discusses the persistence of religion as a dominant force in Iran's politics and society; the attraction of unorthodox doctrines such as Mazdakism, Baha'ism, and revolutionary Shi'ism; the tradition of strong, charismatic leadership; and the constant problem of ruling peoples of diverse tribal, religious and linguistic affiliations. He finds explanations for recent political changes in conditions peculiarly Iranian and examines the emerging post-revolutionary society along with some of its new institutions, including the revolutionary guards, the assembly, the neighbourhood committees, and the Friday prayer leaders.

Karzai "Political leaders are the most universal, recognized, and talked about element of political life. However, the general analysis of political leadership has been little advanced. In this book Professor Blondel provides a general framework for the systematic study of leadership to make possible future

Read Online Charismatic Leadership And Social Movements The Revolutionary Power Of Ordinary Men And Women International Studies In Social History modernh.com

empirical study and comparative analysis of political leadership. After examining the current state of political leadership studies, Professor Blondel categorizes the leaders of the world taking into account both their goals and the constraints and opportunities resulting from the environment. Important features and influences on leadership are identified: the sources of personal power, the role of leaders' own psychology and perspective, the instruments of power available to leaders, their relationship with subordinates and citizens, the influence of institutions on leadership and the impact of leaders"--Provided by publisher.

Reflections on Political Identity "Norton powerfully defends the inevitability and value of 'those particular, concrete traits and actions whereby men differentiate themselves from one another.'"--Ethics.

The Third Reformation

Iran Das Standardwerk: Über die »ganz gewöhnlichen Deutschen« als Täter Daniel Goldhagen hat mit seiner Studie über die Vollstrecker des Holocaust heftige Debatten ausgelöst. Seine These: Schon lange vor Hitler war der Antisemitismus tief verwurzelt in der deutschen Gesellschaft. Es waren nicht nur einige SS-Leute, sondern ganz gewöhnliche Deutsche, die millionenfach Juden erniedrigten und ermordeten.

Sociological Abstracts

Charismatic Leadership and Social Movements

The Social Dimensions of Sectarianism Annotation The purpose of this book is to contradict the conventional wisdom that cult members are weak-willed, weak-minded, lost souls that cannot think for themselves.

The Spellbinders What are the origins of charisma? Are these the same in the various forms of public life, in politics and the media as well as in religion? In this new and radical interpretation of charisma, David Aberbach argues that the basis of charisma in all its forms must be found in the often-obscure symbolic intersection between the inner world of the charismatic and external social and political reality. As illustrations of various facets of this argument, he provides general analyses of charisma in politics, religion and the media as well as individual studies of Churchill, Hitler, Krishnamurti, Bialik and Chaplin.

An Ethic of Responsibility in International Relations The African Christian Roho religion, or Holy Spirit movement, is a charismatic and prophetic movement that arose in the Luo region of western Kenya. This movement has fascinated students of history and religion for more than sixty years, but surprisingly has not been extensively studied. This book fills that lacuna. In Women of Fire and Spirit, Cynthia Hoehler-Fatton uses the extensive oral histories and life narratives of active participants in the faith, giving them full voice in constructing the history of their Church. In doing so, she counterbalances the existing historical literature, which draws heavily on colonial records. Hoehler-Fatton's sources call into question the paradigm of "schism" that has dominated the discussion of African

Read Online Charismatic Leadership And Social Movements The Revolutionary Power Of Ordinary Men And Women International Studies In Social History modernh.com

independent Christianity. Faith, rather than schism or politics, emerges here as the hallmark of Roho religion. Hoehler-Fatton's book is doubly unusual in foregrounding the role of women in the evolution and expansion of their Church. She traces the gradual transformation of women's involvement from the early years when--drawing on indigenous models of female spirit possession--women acted as soldiers, headed congregations, and served as pastors, to the present condition of Western-style institutionalization and exclusion for women. Despite this marginalization, women members continue to be inspired by the defiance of past heroines.

Bulletin of the Atomic Scientists A great deal has been said and written about Jorg Haider, the charismatic but controversial leader of Austria's Freedom Party. To some he is a neo-Nazi and admirer of fellow Austrian Adolf Hitler's policies. To others he is merely an artful opportunist, a telegenic master of coded sound bites and slogans that means different things to different people. And to that quarter of the country's voters who voted this glamorous rabble-rouser's Freedom Party (FPO) to power in 1999, he represents a fresh alternative to the incestuous two-party oligarchy that had run Austria for a half century. This book goes a long way in explaining how his use of rhetoric and language style reminiscent of Nazi leanings have promoted his meteoric rise to political power, and how this same rhetoric could possibly be this man's downfall. For instance, he has been outspoken about endorsing Hitler's unemployment practices, as well as calling former SS veterans, men of character. As a result, among his FPO party members, there are rumors of a split, for there are some who object to his use of language, and his penchant for using the Nazi agenda as a backdrop for their party's political domination. Defiant Populist is about de-bunking the Haider myth created by the love-hate relationship of a clever maverick and the media who feed upon one another. To be understood, the Haider phenomenon needs to be seen in the context of the strange politics of a country that leads a very sheltered existence in the heart of Europe and yet continues to be the odd man out in more ways than one, from machine politics to neutrality, from its hang-ups about past glories to its ambivalent approach to its German and European identity, from its conservative mentality to its lack of a real conservative tradition in politics. This book explains and analyzes the Haider phenomenon from the context of a country of contrasts: an admirable record of non-violence and social peace with residual anti-Semitism, socialist economics with enviable wealth, staunchly pro-Western values with equally ardent neutralism, and a relatively new Austrian identity with a dark German past. Lothar Hobelt is one of Austria's leading modern political historians. In addition to over a hundred articles, he has published ten books, including Republik im Wandel: Die groÄye Koalition und der Aufstieg der Haider-FPÄ-, and Von der Vierten Partei zur Dritten Kraft: Die Geschichte des VdU. He appears regularly in print, radio, and television media, both at home and abroad, as an authority on JÄÄrg Haider and the Freedom Party. Dr. Hobelt has held visiting professorships at the Universities of Chicago and New Orleans, and has taught since 1983 at the University of Vienna.

Unterdrückung und Befreiung In the first half of this century, a talented and charismatic leadership restructured the American Jewish community to meet the demands and opportunities of a pluralistic, secular society. The work of this generation of titans still guides the current modes of American Jewish life. The last of these giants was the influential reformer Stephen S. Wise--a progenitor of American Zionism, creator of the American and World Jewish Congresses, and founder of the Jewish Institute of Religion. As rabbi of the Free Synagogue, Wise led the fight for a living Judaism responsive to social problems. This engrossing study is more than a chronicle of an ethnic

Read Online Charismatic Leadership And Social Movements The Revolutionary Power Of Ordinary Men And Women International Studies In Social History modernh.com

community's adjustment to a host society. Thanks to Melvin Urofsky's painstaking research, it succeeds in revealing the true story behind a legendary and controversial figure in American Jewish history.
