More than forty million visitors per year travel to Sin City to visit the gambling mecca of the world. But gambling is only one part of the city's story. In this carefully documented history, Geoff Schumacher tracks the rise of Las Vegas, including its vital role during World War II; the rise of the Strip in the 1950s; the explosive growth of the 1990s; and the colossal collapse triggered by the real estate bust and economic crisis of the mid-2000s. Schumacher surveys the history of the iconic casinos, debunking myths and highlighting key players such as Howard Hughes, Kirk Kerkorian, and Steve Wynn. Schumacher's history also profiles the Las Vegas where more than two million people live. He explores the neighborhoods sprawling beyond the Strip's neon gleam and uncovers a diverse community offering much more than table games, lounge acts, and organized crime. Schumacher discusses contemporary Las Vegas, charting its course from the nation's fastest-growing metropolis to one of the Great Recession's most battered victims. Sun, Sin & Suburbia will appeal to tourists looking to understand more than the glitz and glitter of Las Vegas and to newcomers who want to learn about their new hometown. It will also be an essential addition to any longtime Nevadan's library of local history. First published in 2012 by Stephens Press, this paperback edition is now available from the University of Nevada Press.

**BUSINESS & MANAGEMENT.** Starting a business of any size can be overwhelming. Every year, thousands of great business ideas languish because entrepreneurs don't have a solid business plan. A business plan is a formal statement of business goals and how they will be attained. The plan guides owners, investors, managers, and major suppliers in understanding what the business is about and how it will make a profit. "The Everything Business Plan Book with CD" provides straight answers and expert advice on creating the right plan for any type of business. With this valuable resource, budding entrepreneurs will find all they need to write a plan that will succeed in the dangerous world of start-ups. The accompanying CD contains 60 sample business plans created by Stephen Windhaus for a variety of popular ventures.

Ten years ago, few libraries had business plans. Today, more and more libraries are required to write them, or they do so because business plans help clarify goals, set reasonable time frames, articulate standards, measure performance, and announce a library's successes. Chock-full of templates, worksheets, case studies, and samples from a wide variety of libraries, big and small, this how-to guide will help you create your business plan quickly and efficiently, saving you time, money, and frustration. One of the forerunners in library business plan development and a popular workshop leader, Harriman guides you through every step of the process, beginning with the whys and wherefores of writing a plan and the function of each component—from the cover page to the appendix and everything in-between. Thirty worksheets will help you pull your plan together, one component at a time. More than twenty sample plans from academic, public, medical, and special libraries worldwide represent best practices. What's more, all of the templates, worksheets, and samples are reproduced on a companion CD-ROM so you can get started now. This is the only reference you need to take your

business plan from concept to completion efficiently, effectively, and without reinventing the wheel. This volume addresses the contentious and topical issue of aboriginal self-government over child welfare. Using case studies from Australia and Canada, it discusses aboriginal child welfare in historical and comparative perspectives and critically examines recent legal reforms and changes in the design, management and delivery of child welfare services aimed at securing the 'decolonization' of aboriginal children and families. Within this context, the author identifies the limitations of reconciling the conflicting demands of self-determination and sovereignty and suggests that international law can provide more nuanced and culturally sensitive solutions. Referring to the UN Declaration on the Rights of Indigenous Peoples, and the UN Convention on the Rights of the Child, it is argued that the effective decolonization of aboriginal child welfare requires a journey well beyond the single issue of child welfare to the heart of the debate over self-government, self-determination and sovereignty in both national and international law. From a \$250,000 fête for a seven-year-old Florida girl, complete with helicopter rides, to \$100,000 first birthday parties as reported in the New York Times, this is rapidly becoming the gilded age of children's birthday parties. The cost of these events now averages between \$200 and \$400, fueled by pressure to "keep up with the Joneses." Couple this surge in interest with the fact that births in the United States have exceeded 4 million each year since 2000, and you have a waiting and growing market. Planning such events has become a profession in itself. More and more, parents are turning to event consultants to plan their children's celebrations. If you've dreamed of your own home business, planned parties for your own children, and want to put your creative ideas to work, this book is for you. Packed with organizing tips, guidelines, checklists, and more, **How to Start a Home-Based Children's Birthday Party Business** will help you hit the ground running. **Plan for success** No one would embark on a business venture without a thorough and coherent plan.
