The idea for this book came while I was observing a student teacher and a master teacher. I realized that most student teachers while in training do not have the opportunity to think creatively about their lessons. I also noticed that teachers new to the field of teaching suffer the same fate; they are too busy trying to survive the day and are not sure how to plan and organize their teaching. Lesson plans are one of the most important tools for a teacher and more important for the novice teacher. I believe that during student teaching or during their undergraduate years, if students were equipped with this book their first year teaching will not look so first year. Imagine an undergraduate class filled with soon to be Social Studies teachers discussing these selected lesson plans, improving upon them and making them their own. Most first year teachers over teach or under teach and both types still miss the marks on the standardized test. These lesson plans will give the new teacher a place to begin.

Teaching the Tough Issues introduces a groundbreaking teaching method intended to help English, social studies, and humanities teachers address difficult or controversial topics in their secondary classrooms. Because these issues are rarely addressed in teacher preparation programs, few teachers feel confident facilitating conversations around culturally and politically sensitive issues in ways that honor their diverse students' voices and lead to critical, transformative thinking. The author describes a four-step method to help teachers structure discussions and written assignments while concurrently assisting them in addressing Common Core State Standards. Designed to aid students in both developing their own viewpoints on contentious issues and in actively critiquing those of their teachers and peers, these practices will enhance any humanities curriculum. Book Features: Offers guidance for exploring difficult and/or controversial aspects of course content. Provides an excellent means of differentiating instruction and promoting critical literacy. Helps teachers to foster positive behavior and decision-making with their students. Enables students to improve their reading, writing, speaking, listening, and observation skills. Assists teachers in attaining the CCSS and other curricular mandates in their secondary humanities classrooms. "Darvin has provided us all with a powerful tool for guiding students as they explore their identity, unafraid to explore what it means to be human." —From the Foreword by Douglas Fisher, professor of educational leadership, San Diego State University "Darvin takes on the big, important issues in adolescents' lives that often go unaddressed in most classrooms. With an equal balance of sensitivity and directness, she exhorts teachers to name, deconstruct, and think curricularly about the cultural and political forces influencing and being influenced by today's youth." —William Brozo, professor of literacy, George Mason University, author of Wham! This practical, accessible resource will help future and practicing teachers integrate literature into their middle school or high school classrooms, while also addressing content area standards and improving the literacy skills of their students. Two introductory chapters are followed by five chapters that each cover a different genre: Chapter 3, Informational Books; Chapter 4, Fiction; Chapter 5, Biography, Autobiography, and Memoir; Chapter 6, Poetry; and Chapter 7, How-to and Hands-on Books. Each genre chapter consists of four parts: Part 1: Discusses the genre and how content area teachers can use books within that genre to further content learning and enhance literacy skills. Part 2: Offers hands-on instructional strategies and activities using literature, with activities for use in a variety of disciplines. Part 3: Presents individual author studies (three or four per chapter) with bibliographies and guidelines for using the authors' books in content area courses. Part 4: Features an annotated bibliography of specially selected children and young adult literature for that genre, organized by content area. The annotations provide information about the book, which can be used to prepare booktalks, and teaching ideas for using in a specific content area. Altogether these sections contain more than 600 annotated entries tabbed by subject area, including art, English/language arts, languages and culture, math and technology, music, PE/health, science, and social studies/history.
