13.07.2019 · When tuning diesels became a possibility about 20 years ago there were few options available
with little variation. Fast forward to 2019 and the tuning technology for diesels has improved leaps and
bounds. Diesel owners now have the ability to DIY diesel tuning, custom diesel tuning or select from a
wide variety of plug and play diesel tuners. With all of those ...

The diesel engine, named after Rudolf Diesel, is an internal combustion engine in which ignition of the
fuel is caused by the elevated temperature of the air in the cylinder due to mechanical compression;
thus, the diesel engine is a so-called compression-ignition engine (CI engine). This contrasts with
engines using spark plug-ignition of the air-fuel mixture, such as a petrol engine

Diesel tuning boxes are particularly likely to cause DPF blockage since they lack the ability to control fuel in accordance with engine speed and load. Such indiscriminate increases in fuel can cause frequent over-fueling, with the result that particulates build up in the filter faster than DPF regeneration can remove them.

Tuning the BMW M57 Engine. The M57 is a water-cooled and turbocharged inline six cylinder diesel engine with common-rail injection. It is based on its predecessor, the M51, which was a six-cylinder diesel engine with a Bosch VP20 swirl chamber (in-Direct) injection or IDI as its commonly known, and was fitted to the E34 to E39 td and tds models

Diesel engines are also known for their ruggedness and durability. For example, the diesel engines of Mercedes Benz hold the world record for logging 1.4 million kilometres without replacing the original engine. Because it gives greater torque needed for hauling and pulling heavy objects, the most popular heavy-duty trucks use diesel engines.

Eine zusätzliche Komponente unseres Motortuning ist dabei eine potenzielle Verbrauchsreduktion von bis zu 15% sowohl für Diesel wie auch Benziner sowie alle Marken.. Diesel engines need fuel to pump at extreme pressures, which is why they need High-Pressure Fuel Pumps (we'll discuss this a little later down the post). Injectors typically fail over time due to high heat and high-pressure levels constantly going through them. What will end up happening is one of two things: injectors will get clogged and eventually lead to failure or they will leak which

Chiptuning: Tuning am Motor über das Kennfeld: Heutige Autos haben nur noch wenig mit den ersten Motorbetriebenen Fahrzeugen gemeinsam: Sie sind mehr Computer bzw.
