Censorship! The word itself sparks debate, especially when the context is the public school. Since the publication of the second edition of this landmark book in 1993, wired classrooms, legal challenges, and societal shifts have changed the landscape for the free exchange of ideas. Completely revised and updated, this new edition remains the most comprehensive guide for protecting the freedom to read in schools: For school librarians and media specialists, teachers, and administrators, Reichman covers the different media (including books, school newspapers, and the Internet), the important court cases (including recent litigations involving Harry Potter, the Internet, and Huck Finn), the issues in dispute (including violence, religion, and profanity), and how the laws on the books can be incorporated into selection policies. An entire chapter is devoted to troubleshooting and answering the question of What do we do if? Look no further for the best and most specific information on providing access and facing challenges to intellectual freedom. You'll find answers if you are asking questions like these: \* What is the distinction between making selection decisions and censoring?

## Novels by Judy Blume

Judy Blume is one of America's most popular authors of books for teens and adults. Fans of her work may not be aware, however, that this successful author was a wife and a mother before she tested her writing abilities. Blume's perseverance eventually landed this keenly observant author a publishing contract. Readers have laughed at the adventures of Peter Hatcher and his brother, Fudge, in Blume's "Tales of a Fourth Grade Nothing," and preteen readers found the trials and tribulations of puberty eased by reading "Are You There God? It's Me, Margaret" or "Then Again, Maybe I Won't." Blume's characters convey how it truly feels to be a teenager facing doubts, fears, and anxiety about life. This new edition brings readers up to date on this active author.

### Forbidden Fruit

This book looks at how popular young adult literature fetishizes virginity. Christine Seifert examines how and why so much romance and dystopian fiction—the two most popular genres in YA lit—have focused on what she calls “abstinence porn”—a phenomenon that has broken out since the appearance of Twilight on the market.

Excerpt: Then Again, Maybe I Won't is a young adult novel written by Judy Blume. Intended for pre-teens and teenagers, the novel deals with puberty from a male perspective as well as the other trials of growing up. Judy Blume claimed that she was inspired to write the story following the success of her preceding novel Are You There God? It's Me, Margaret. Given her earlier novel was about a girl entering puberty making the transition to womanhood, she decided to write one about a boy going through puberty and making a transition to manhood. Tony Miglione and his working-class family live in Jersey City, New Jersey. When his older brother Ralph and his wife Angie announce they are having a baby but lack money to care for the child, Tony's parents offer to help. Both of Tony's parents work extra shifts to try and raise enough money. Tony's father, an electrician who tries his hand at inventing in his spare time, is inspired to invent wireless electrical cartridges, which he then patents and sells to a large company called J.W. Fullerbach Electronics. Mr. Miglione is then made a plant manager for a Fullerbach factory which will manufacture his invention. This new job brings to the Miglione family a large increase in wealth and a move from Jersey City to Rosemont, New York, a fictitious affluent

### Then Again, Maybe I Won't

Forbidden Fruit: The Censorship of Literature and Information for Young People was a two day conference held in Southport, UK in June 2008. This collection of papers from the conference will be of interest to teachers, school and public librarians, publishers, and other professionals involved in the provision of literature and information resources for young people, as well as to researchers and students. The proceedings draw together some of the latest research in this area from a number of fields, including librarianship, education, literature, and linguistics. The topics covered include translations and adaptations, pre-censorship by authors, publishers and editors, LGBT (lesbian, gay, bi-sexual and trans) materials, and the views of young people themselves. The papers included in the proceedings deal with a wide range of issues. Research student Lucy Pearson takes a historical perspective, considering the differences in the way in which two titles, *Young Mother* in the 1960s and *Forever* in the 1970s, handle the theme of teenage sexuality. John Harer from the United States and Elizabeth Chapman and Caroline Wright from the UK also deal with the controversial issue of teenage sexuality. Both papers are concerned with the censorship of LGBT (lesbian, gay, bi-sexual, and trans) materials for young people, especially referring to issues faced by librarians in dealing with such resources in their respective countries. Another writer to examine the issue from a librarianship perspective is Wendy Stephens, who reports on her action research into students reactions to book banning and censorship in the context of a twelfth-grade English literature research project. Taking one step back from the question of access to controversial materials, Cherie Givens reports on her doctoral research examining the often neglected issue of pre-censorship-- that is, restrictions which take place, usually as a result of pressure from editors and publishers, before materials reach the library shelves. Showing a different side of the publishing industry, Christopher Gruppetta writes from the perspective of a publisher keen to promote young adult fiction in Malta. His article demonstrates the huge strides which can take place in a relatively short period of time, even in a religiously conservative country. Talks by young adult authors were also included in the conference programme. Ioanna Kaliakatsou considers how self-censorship is exercised by authors and how attitudes have changed since the early twentieth century. Yet another point at which works might be censored is when they are translated or adapted. Evangelia Moula focuses on censorship in adaptations of classic Greek tragedies, while Helen T. Frank examines Australian children's fiction translated into French to highlight the process of purification or sanitization that can occur during translations."
