This book presents the current state of knowledge

concerning developments in organisational behaviour and human capital management in the new millennium. It features an in-depth study among managerial staff in the manufacturing sector in Malaysia to reflect employee perceptions of organisational justice, organisational citizenship behaviour, job satisfaction and manager-employee exchanges. Specifically, it seeks to establish the relationships between these constructs to better manage human capital. With globalisation and the increased career mobility of young talents, organisational citizenship behaviour is of paramount importance in order to retain these workers. The study's greatest contribution is its identification of key indicators that influence organisational citizenship behaviour. Knowing which type of organisational justice is salient for each construct allows the management to proactively improve conditions at the workplace. In essence, this book is intended to draw attention to those aspects of managing human capital that ought to receive the most attention, but are often overlooked in practice. In light of ongoing global challenges, it seeks to improve governance at the workplace. It offers a valuable resource for researchers and practitioners alike, as well as graduate students writing their dissertations.

This book focuses on the director's duties and responsibilities in the administration of the company and the governance role of the company secretary in ensuring compliance with the provisions of the Companies Act 2016, the company's Constitution, the Bursa Malaysia Listing Requirements, the Malaysian Code of Corporate Governance and other related laws and regulations. In addition, the new statutory forms are shown as Exhibits at the end of each chapter for easy reference.

Emotionale Intelligenz 2.0

Emotionale Intelligenz ist ein wichtiger Faktor im Berufs- und Privatleben. Sie spielt nachweislich für Erfolg und Misserfolg der Karriere eine größere Rolle als die fachliche Qualifikation. Dennoch wissen nur die wenigsten Menschen, wie sie ihren EQ steigern und so ihre Kommunikationsfähigkeiten und beruflichen Entwicklungsmöglichkeiten entscheidend verbessern können. Dieses Buch vermittelt einen Aktionsplan mit einfachen und sofort anwendbaren Strategien und Übungen. Schritt für Schritt werden die für einen hohen EQ erforderlichen Basisfähigkeiten Eigenwahrnehmung, Selbstkontrolle, Wahrnehmung anderer und Beziehungsmanagement erarbeitet und verbessert. Eine objektive Beurteilung der eigenen Fähigkeiten ist online mit dem beliebten Emotional-Intelligence-Appraisal®-Test möglich; mit seiner Hilfe können in regelmäßigen Abständen die Fortschritte nachvollzogen werden. Dieses kompakte Praxisbuch macht emotionale Intelligenz fernab komplizierter Theorie greifbar und in einfachen Schritten erlernbar – für jedermann.
