Continuing a Gold Medallion Award-winning legacy, this completely revised edition of The Expositor's Bible Commentary series puts world-class biblical scholarship in your hands. Based on the original twelve-volume set that has become a staple in college and seminary libraries and pastors' studies worldwide, this new thirteen-volume edition marshals the most current evangelical scholarship and resources. You'll find up-to-date information grounded in the same unchanging commitment to the divine inspiration, complete trustworthiness, and full authority of the Bible. Of the fifty-six contributors, thirty of them are new. Reflecting the Expositor's Bible Commentary international and cross-denominational approach, they come from the United States, Canada, England, Scotland, Australia, and New Zealand, and from a broad diversity of churches, including Anglican, Baptist, Brethren, Methodist, Nazarene, Presbyterian, and Reformed. The Expositor's Bible Commentary uses the complete New International Version for its English text, but it also refers freely to other translations and to the original languages. For each book of the Bible, the thoroughly revised features consist of:
A comprehensive introduction
A short and precise bibliography
A detailed outline
Insightful exposition of passages and verses
Overviews of sections of Scripture to illumine the big picture
Occasional reflections to give more

detail on important issues Notes on textual questions and special problems, placed close to the text in question Transliteration and translation of Hebrew and Greek words, enabling readers to understand even the more technical notes A balanced and respectful approach toward marked differences of opinion

Hebrews - Revelation

The Democrats Must Lead Herbert Marshall McLuhan (1911-1980) received his PhD in English literature from Cambridge University and taught in the United States and Canada. He is best known, however, as the founding father of media studies. McLuhan was Director of the Center for Culture and Technology at the University of Toronto. Among his ground-breaking works on the psychic and social dimensions of communication technology are *The Gutenberg Galaxy* (1962); *Understanding Media: the Extensions of Man* (1964); and *The Medium Is the Massage: An Inventory of Effects* (1967). Michel Moos' premise is that Marshall McLuhan's importance derives from his achievements in rethinking the entire process of education and training itself, not with his popular fame as media guru, and he analyzes McLuhan's work from the feedback effect his vision continues to provide, rather than from the perspective of interpreting McLuhan's pronouncements on the electronic media. Moos contrasts McLuhan's thoughts with those of such thinkers as Roland Barthes, Fredric Jameson, Friedrich Kittler, Donna Haraway, and Deleuze and Guattari, and renders an updated account of the effect of the mass media on our society and ourselves. The concept "the medium is the message" is the hub around which Marshall McLuhan's explorations revolved. McLuhan's interests ranged from sixteenth-century literature to twentieth-century business practices. With wit and literary flair, he reported the media's influence on society and on the individual. He concluded that we could not escape being transformed by the forces that are hidden deeply within the electronic telecommunications revolution of the sixties. For McLuhan, the new mediums of film, television, and the emerging realm of the digital were the modern equivalent of Gutenberg's printing press. Essays by M. McLuhan. Edited and with a Commentary by M.A. Moos.

Wasserstoff als Energieträger Electing the Pope in Early Modern Italy, 1450-1700 offers a radical reassessment of the history of early modern papacy, constructed through the first major analytical treatment of papal elections in English. Papal elections, with their ceremonial pomp and high drama, are compelling theatre, but, until now, no one has analysed them on the basis of the problems they created for cardinals: how were they to agree rules and enforce them? How should they manage the interregnum? How did they decide for whom to vote? How was the new pope to assert himself over a group of men who, until just moments before, had been his equals and peers? This study traces how the cardinals' responses to these problems evolved over the period from Martin V's return to Rome in 1420 to Pius VI's departure from it in 1798, placing them in the context of the papacy's wider institutional developments. Miles Pattenden argues not only that the elective nature of the papal office was crucial to how papal history unfolded but also that the cardinals of the fifteenth to eighteenth centuries present us with a unique case study for observing the approaches to decision-making and problem-solving within an elite political group.

Heimat One of the underlying messages of the book is that current research should be guided by both computational and theoretical tools and not only by statistical techniques - that matters have gone far beyond counting to encompass the difficult province of meaning itself and how it can be formally expressed.

Resources in Education „Wie kann man verstehen, wer man ist, wenn man nicht weiß, woher man kommt?“ Sie lebt seit über 12 Jahren in New York, ist verheiratet mit einem amerikanischen Juden und fühlt sich deutscher als jemals zuvor. Woher kommt das? Und wer ist sie eigentlich? Die preisgekrönte, 1977 in Karlsruhe geborene Autorin und Illustratorin Nora Krug fragt sich, was Heimat für sie bedeutet, und unternimmt eine literarisch-grafische Spurensuche in der Vergangenheit ihrer Familie: Was hatte Großvaters Fahrschule mit dem jüdischen Unternehmer zu tun, dessen Chauffeur er vor dem Krieg gewesen war? Und was sagen die mit Hakenkreuzen dekorierten Schulaufsätze über ihren Onkel, der mit 18 Jahren im Zweiten Weltkrieg fiel? Ihre gezeichneten und handgeschriebenen Bildergeschichten fügt Krug mit Fotografien, Archiv- und Flohmarktfunden zu einem völlig neuen Ganzen zusammen. „Heimat“ ist ein einzigartiges Erinnerungskunstwerk, in dem Familiengeschichte auf Zeitgeschichte trifft. Ein Graphic Memoir, lebendig, wahr und poetisch erzählt. Dieses eBook beinhaltet farbige Abbildungen und Illustrationen mit handgeletterten Texten. Es ist für die Darstellung auf Tablets optimiert.

1 and 2 Peter, 1, 2, and 3 John, Jude All over the world, political parties are being born and political pluralism is being fostered. Ironically, here in the United States, the parties are blurring together ideologically, and the political process is suffering. One of the messages of this book is that a vital two-party system is essential to America's political health. The last thing this country needs, the authors argue, is two Republican parties. At this critical moment in history, the Democratic party has the opportunity to offer the nation a real political choice, a sense of direction, and a program to address the needs of Americans in a changing world. It is time, they say, for a change—a change that only the Democrats can provide. As recounted here, a generation of Republican administrations have had their chance. The results have not been happy: deepening social divisions, heightened inequalities in income distribution, a decaying educational system, environmental exploitation, an insensitivity to the concerns of the less powerful, the largest public debt in history, and a foreign policy based on force. Recurring constitutional crises have also erupted, as epitomized by the Iran-Contra affair. The record is a sorry one. Alternatives exist, and the best ones rest with the Democratic party. The Democrats must lead. It is their responsibility to offer a new vision of the future and the means for achieving it—to provide a program that is compassionate, just, and inclusive of all. The politics of greed, exploitation, self-promotion, and militarism must be put behind us. Such are the themes of this extraordinary book. Leading academicians, each an expert in his or her area, emphasize the need for new leadership, propose contributions that a progressive Democratic party could make, and suggest what this party should stand for as well as how it can win in 1992. They urge the Democrats to be both brave and principled—brave in defying the conventional wisdom that Democrats must be moderate to win, and principled in sticking to

progressive ideals. The book provides analysis of such areas as the political impact of an issue-oriented, liberal party; the campaign and media choices required to get a progressive message across; the role and concerns of women, blacks, Hispanics, and other 262underrepresented groups; electoral and legislative strategies for success; and the substance of what a progressive policy agenda should contain. Challenging and thought-provoking, these essays will help reshape political thinking during this critical period in the nation's history. Their objective is creation of a society that represents and responds to human needs, and the authors indicate the way to achieve these goals through an invigorated, forward-looking Democratic party.

Revelation (Baker Exegetical Commentary on the New Testament) This work examines the development of the EU from the Paris and Rome Treaties to the Amsterdam reforms. The text aims to provide reliable analysis to students, academics and the wider public of the main policies which encompass the European Union.

The Archaeological Journal Who am I? Why am I here?Where am I going?What if . . .?Science fiction delights in asking old questions in new ways. Rather than being primarily about advanced technology and the imagined future, science fiction novels and films are more fundamentally about issues of human nature and destiny. They provide a unique perspective on the same questions that have dominated theology and philosophy throughout history. In this fascinating book, Mike Alford aims neither to give a history of science fiction, nor to systematically identify specific religious motifs within the genre, but to create an interdisciplinary, exploratory space where we can engage with the primal themes in new ways. Whether we are already well-versed in science fiction, or have had only the briefest encounters with Frankenstein's monster and Doctor Who, this book will provide exciting insights into questions of identity, the human condition, our relationships and our destiny.

The Longman Handbook of Early Modern Europe, 1453-1763 Essential reference to anyone interested in Europe during the early modern period! Chronologies outline 300 years of European history. Charts the course of major conflicts of the period. Provides mini-biographies of leading personalities. The Longman Handbook of Early Modern Europe covers Europe from the fall of Constantinople in 1453 to the treaty of Paris in 1763. Embracing all the major aspects of European political, social, economic and cultural history during the period, it reflects the enormous changes that transformed Europe over three centuries. Key themes include the Reformation, Imperial Spain, the Revolt of the Netherlands, the Thirty Years War and the Enlightenment, with a detailed examination of European expansion overseas. It offers chronologies that outline 300 years of European history and chart the course of major conflicts of the period, mini-biographies of leading personalities and bibliographical essay that guides the reader through the literature. The Longman Handbook of Early Modern Europe is the essential companion to Europe during the early modern period - a user-friendly compendium of key facts and figures. Chris Cook is formerly of the London School of Economics. Dr. Philip Broadhead Philip is at the University of London.

ASEAN Link Here is a wealth of factual and interpretative information about Germany, and German society, economy and culture, between 1918 and 1945. Tim Kirk's primary concern is with the Hitler years, but he sets them in their wider context throughout: wherever appropriate, the sections span the Weimar Republic and the rise of Nazism as well as the Third Reich itself, to illuminate the many continuities in Germany - as well as the obvious changes - on either side of the political dividing line. Purely as a compilation this is a formidable achievement. Its usefulness is greatly enhanced by Tim Kirk's admirably level-headed

commentary, whether it is guiding the reader through the everyday domesticities of ordinary people before the war or the mounting horrors of the Third Reich at bay. The result (which includes information not otherwise available in English) is an invaluable study aid, within the confines of a single volume of manageable size, to a subject that, half a century on, has lost nothing of its baleful fascination.

Sermon on the Mount

Longman Lower Sec Science Topical Practice Vol 2 Emphasizing the historical distance between the New Testament and our contemporary culture, The Sermon on the Mount by Scot McKnight, part of the new The Story of God Bible Commentary series, offers helpful contextual insights for those seeking to discern how to live out the Bible in today's world. Perfect for pastors, students, Sunday school teachers, and lay people alike, this highly anticipated series provides a clear and compelling exposition of the text in the context of the Bible's overarching story. The authors move away from "application" language, which has been criticized as being too simplistic, encouraging instead a wider perspective and discussion of how the biblical story can be lived today. Offering a new type of application commentary for today's context, the Story of God Bible Commentary series explains and illuminates Scripture as God's Story, with each New Testament text examined as embedded in its canonical and historical setting, in order to foster discernment in living the story faithfully and creatively with and for the Church in the 21st Century.

Preaching Christ from Daniel The conservation of historic monuments, sites and structures constitutes an inter-professional discipline co-ordinating a range of aesthetic historic, scientific and technical methods. Conservation is a rapidly developing field, which, by its true nature, is a multidisciplinary activity with experts respecting one another's contributions and combining to form an effective team. Conservation is an artistic activity aided by scientific and historical knowledge. Main topics at this Congress included: - the most appropriate methodology for the assessment of the degree of weathering of stone - development of new methods and instruments for the diagnosis of the state of conservation, for the study of alteration mechanisms and for conservation treatments. - the definition of Technical European Standard Methods for the evaluation of conservation treatments of artistic and historic stone objects and monuments.

Electing the Pope in Early Modern Italy, 1450-1700 In Preaching Christ from Daniel Sidney Greidanus shows

preachers and teachers how to prepare expository messages from the six narratives and four visions in the book of Daniel. Using the most up-to-date biblical scholarship, Greidanus addresses foundational issues such as the date of composition, the author(s) and original audience of the book, its overall message and goal, and various ways of preaching Christ from Daniel. Throughout his book Greidanus puts front and center God's sovereignty, providence, and coming kingdom. Each chapter contains building blocks for constructing expository sermons and lessons, including useful information on the context, themes, and goals of each literary unit links between Daniel and the New Testament how to formulate the sermon theme and goal contemporary application and much more!

What If?

An Introduction to the Old Testament

Select Works of the British Poets, with Biographical and Critical Prefaces by Dr. Aikin This volume represents a unique addition to the growing body of empirical literature on materials development, adopting a reverse approach to the topic. Rather than applying 'theory to practice', practitioners and researchers from 11 countries reappraise applied linguistics theories through practice. The book also provides evidence for the diversity of materials development around the globe at different levels for different specialities and for different purposes. Each chapter surveys the relevant literature (such as task-based learning and language and culture), describes a specific research project, reports the results of the project, and discusses the implications of these results for the development of materials both in the local context and in general. After each section there are editorial comments highlighting the issues emerging from the research, and there is a conclusion which connects the findings of the various chapters and makes suggestions both for future research and for the principled development of materials for L2 learners. The book will be suitable for teachers, materials developers, academics and students in post-graduate courses in applied linguistics, in TEFL/TESOL and in the teaching of other languages as an L2.

Proceedings of the 9th International Congress on Deterioration and Conservation of Stone The Book of Revelation contains some of the most difficult passages in Scripture. Grant Osborne's commentary on Revelation begins with a thorough introduction and the many difficulties involved in its interpretation. He also examines elements that complicate the interpretation of apocalyptic literature. As with all volumes published in the BECNT series, Revelation seeks to reach a broad audience with scholarly research from a decidedly evangelical perspective.
