Are SOAP notes required in massage therapy? The answer is....sometimes. It depends on where you work. Generally, the more clinical the setting, the more likely you are to be required to document your treatments. However, even many spa settings or offices that primarily give relaxation type massages will require you to at least write a visit note. Typically there are no ...

Deep friction massage (DFM), also known as cross friction massage, is a specific connective tissue massage that was developed by James Cyriax. The purpose of DFM is to: maintain the mobility within the soft tissue structures of ligament, tendon, and muscle, and prevent adherent scars from forming. The massage is deep, as the name implies, and must be applied ...

**02.07.2021 · Massage therapy supposedly “increases circulation,” and this is one of the main mechanisms of helping patients. Although massage probably does sometimes modestly boost circulation in some ways, the scientific evidence shows that it’s too little to matter. Most importantly, light exercise is clearly a much stronger driver of circulation. Because the ...**
