**Mechanical Engineering, Bachelor of Engineering, Full-time Mechanical and Aerospace Engineering**

**Mechanical Engineering, Bachelor of Engineering, Full-time The Mechanical Engineering program is nationally accredited by the Canadian Engineering Accreditation Board (CEAB). Completion of a Mechanical Engineering degree and enrolling as an Engineer-in-Training (EIT) with a provincial engineering licensing body are the first steps to achieve licensure as a Professional Engineer (P.Eng.).**

**Mechanical and Aerospace Engineering Fundamentals of engineering thermodynamics: energy, work, heat, properties of pure substances, first and second laws for closed systems and control volumes, gas mixtures. Application to engineering systems, power and refrigeration cycles, combustion. Renumbered from MAE 110A. Students may not receive credit for MAE 11 and MAE 110A. Prerequisites: ...**
