For more than 300 years Chinese have been part of the fascinating mix of people who make up the inhabitants of the southern tip of Africa. One of the smallest and most identifiable minority groups in arguably the most race-conscious country in the world, they have not up to now been the focus of serious historical attention. This detailed and descriptive chronological account aims to fill a gap in available histories by providing a comprehensive record of the Chinese in South Africa from the earliest times to the mid-1990s.

Forums such as commissions, courtroom trials, and tribunals that have been established through the second half of the twentieth century to address aboriginal land claims have consequently created a particular way of presenting aboriginal, colonial, and national histories. The history that emerges from these land-claims processes is often criticized for being "presentist" - inaccurately interpreting historical actions and actors through the lens of present-day values, practices, and

concerns. In **Aboriginal Rights Claims and the Making and Remaking of History**, Arthur Ray examines how claims-oriented research is often fitted to the existing frames of indigenous rights law and claims legislation and, as a result, has influenced the development of these laws and legislation. Through a comparative study encompassing the United States, Canada, South Africa, Australia and New Zealand, Ray also explores the ways in which various procedures and settings for claims adjudication have influenced and changed the use of historical evidence, made space for indigenous voices, stimulated scholarly debates about the cultural and historical experiences of indigenous peoples at the time of initial European contact and afterward, and have provoked reactions from politicians and scholars. While giving serious consideration to the flaws and strengths of presentist histories, **Aboriginal Rights Claims and the Making and Remaking of History** provides communities with essential information on how history is used and how methods are adapted and changed.

»Ich bin einer von ungezählten Millionen, die durch Nelson Mandelas Leben inspiriert wurden.« Barack Obama Eine fast drei Jahrzehnte währende Gefängnishaft ließ Nelson Mandela zum Mythos der schwarzen Befreiungsbewegung werden. Kaum ein anderer Politiker unserer Zeit symbolisiert heute in solchem Maße die Friedenshoffnungen der Menschheit und den Gedanken der Aussöhnung aller Rassen wie der ehemalige südafrikanische Präsident und Friedensnobelpreisträger. Auch nach seinem Tod finden seine ungebrochene Charakterstärke und Menschenfreundlichkeit die Bewunderung aller friedenswilligen Menschen auf der Welt. Mandelas Lebensgeschichte ist über die politische Bedeutung hinaus ein spannend zu lesendes, kenntnis- und faktenreiches Dokument menschlicher Entwicklung unter Bedingungen und Fährnissen, vor denen die meisten Menschen innerlich wie äußerlich kapituliert haben dürften.

**The U.S. Army and World War II** is an anthology of selected papers from three international conferences held in 1990, 1992, and 1994 on the Army's role in the war. Taking the best from those meetings, Judith L. Bellafaire has organized the various presentations into four thematic categories--prewar planning, the home front, the European theater, and the Asian-Pacific theaters--reflecting the diversity of both the war and the interest of those seeking to understand its many facets. In these carefully edited papers, one will find the more conventional treatments of doctrine, strategy, and operations side by side with those focusing on military mobilization and procurement, race and gender, psychological warfare, and large-scale advice and assistance programs. Despite significant changes in military technology and the geopolitical landscape of the world since those desperate times, the human problems highlighted by the authors are not much different from many of those facing Army leaders today. Although the past can never provide the specific recipes needed for the future, experience has shown that both the basic ingredients and the manner in which they are prepared and processed have remained remarkably constant. Those grappling with the challenges of stability operations and other contingency missions in support of the Global War on Terrorism will find this collection of readings invaluable.

**The Irish Civil War and Society** sheds new light on the social currents shaping the Irish Civil War, from the 'politics of respectability' behind animosities and discourses; to the intersection of social conflicts with political violence; to the social dimensions of the war's messy aftermath.
