Australian national bibliography

New Syllabus Additional Mathematics (NSAM) is a series of textbooks and workbooks designed to prepare students for the Singapore-Cambridge GCE O-level examination in Additional Mathematics. Together with the textbook, the workbook will provide students with ample practice to apply the various skills and concepts learnt to solving problems in both examination and real-life situations. The workbook contains the following features: REVISION NOTES Revision Notes are found at the start of each chapter. They emphasise the important concepts and formulae in the chapter. PRACTICE QUESTIONS Practice Questions provide students with a wide range of questions for further practice. The questions are classified into three levels of difficulty. ♦ questions require students to use specific skills and concepts in the chapter directly to solve problems. ♦ questions require students to apply their skills and concepts to solve problems. ♦ questions require students to apply various skills and concepts, including the use of problem-solving skills, to solve problems. Revision Exercise The Revision Exercise is found after every few chapters to help students to recall and consolidate all the concepts learnt in these chapters. Mid-Year Specimen Papers and End-of-Year Specimen Papers The Mid-Year Specimen Papers and End-of-Year Specimen Papers have been written to follow closely to the format of school's Mid-Year and End-of-Year examinations. It is hoped that when students use this book, to reinforce the concepts that they are weak in, they will eventually gain success in Additional Mathematics.

GCSE Edexcel Science Higher Success Workbook

This workbook offers accessible practice to help manage GCSE Additional Science revision and prepare for the exam

efficiently. The content is broken into manageable sections and advice is given to help build confidence. Tips and techniques provide support throughout the revision process.

New Syllabus Mathematics for O Level 2

GCSE Edexcel Additional Science Higher Success Workbook

New Syllabus Mathematics is a series of four books. These books follow the Mathematics Syllabus for Secondary Schools, implemented from 2007 by the Ministry of Education, Singapore. The whole series covers the complete syllabus for the Singapore-Cambridge GCE O Level Mathematics. The sixth edition of New Syllabus Mathematics retains the goals and objectives of the previous edition, but has been revised to meet the needs of the current users, to keep materials up-to-date as well as to give students a better understanding of the contents. All topics are comprehensively dealt with to provide students with a firm grounding in the subject. Explanations of concepts and principles are precise and written clearly and concisely with supportive illustrations and examples. Examples and exercises have been carefully graded to aid students in progressing within and beyond each level. Those exercises marked with a require either more thinking or involve more calculations. Numerous revision exercises are provided at appropriate intervals to enable students to recapitulate what they have learnt. Some interesting features of this series include the following: ♦ an interesting introduction at the beginning of each chapter complete with photographs or graphics ♦ brief specific instructional objectives for each chapter ♦ Just For Fun arouses the students' interests in studying mathematics ♦ Thinking Time encourages students to think creatively and go deeper into the topics ♦ Exploration provides opportunities for students to learn actively and independently ♦ For Your Information provides extra information on mathematicians, mathematical history and events etc. ♦ Problem Solving Tips provides suggestions to help students in their thinking processes. We also introduce problem solving heuristics and strategies systemically throughout the series. ♦ Your Attention alerts students to misconceptions.

Resources in Education

New Syllabus Mathematics (Normal Academic) is a series of textbooks and workbooks designed to prepare students for the Singapore-Cambridge GCE N-level and O-level examinations. Together with the textbook, the workbook will provide students with ample practice to apply the various skills and concepts learnt to solving problems in both examination and real-life situations. The workbook contains the following features: **PRACTISE NOW** The Practise Now questions in the workbook, which are closely linked to the worked examples in the textbook, provide students with further practice. **REVIEW EXERCISE** The Review Exercise in each chapter serves to consolidate the learning of concepts. **ACTIVITY** Activity is included, where appropriate, to encourage independent learning.

New Syllabus Mathematics Textbook 1

CIMA's Official Learning System has been written by former CIMA examiners in conjunction with the CIMA faculty. They provide a clear logical route through the new syllabus to specifically prepare students to pass, first time. CIMA Official Learning Systems include: * Step-by-step coverage directly linked to the CIMA syllabus learning outcomes * Chapter and topic summaries * Extensive question practice * Complete Revision section * CBA style mock exam * Two colour layout for easy navigation The ring binder format allows you to add in your notes as you work through the system, and if attending classes, to just take the chapter you need. CIMA Official Learning Systems are the only materials written and endorsed by the CIMA Faculty. * Re-

engineered to meet the demands of the new CIMA Certificate in Business Accounting 2006 syllabus * Complete integrated package incorporating syllabus guidance, full text, recommended articles, revision guides and extensive question practice * CIMA Official Learning Systems are the only materials written and endorsed by the CIMA Faculty.

New Syllabus Additional Mathematics Workbook

A practical introduction to the core mathematics required for engineering study and practice Now in its seventh edition, Engineering Mathematics is an established textbook that has helped thousands of students to succeed in their exams. John Bird's approach is based on worked examples and interactive problems. This makes it ideal for students from a wide range of academic backgrounds as the student can work through the material at their own pace. Mathematical theories are explained in a straightforward manner, being supported by practical engineering examples and applications in order to ensure that readers can relate theory to practice. The extensive and thorough topic coverage makes this an ideal text for a range of Level 2 and 3 engineering courses. This title is supported by a companion website with resources for both students and lecturers, including lists of essential formulae, multiple choice tests, full solutions for all 1,800 further questions contained within the practice exercises, and biographical information on the 24 famous mathematicians and engineers referenced throughout the book. The companion website for this title can be accessed from www.routledge.com/cw/bird

New Syllabus Mathematics Workbook 1

This workbook offers accessible practice to help manage GCSE Science revision and prepare for the exam efficiently. The content is broken into manageable sections and advice is given to help build confidence. Tips and techniques provide support throughout the revision process.

Bookseller

Geschichte der Universität in Europa

This book sheds light on school mathematics curricula in Asian countries, including their design and the recent reforms that have been initiated. By discussing and analyzing various problematic aspects of curriculum development and implementation in a number of East and South Asian countries and offering insights into these countries' unique approaches to supplementing

school mathematics curricula, it contributes to shaping effective policies for implementation, assessment and monitoring of curricula. The book covers a wide range of issues: curriculum design, localization of curricula, directions of curricular reforms, mathematics textbooks, assessment within the curriculum and teachers' professional development, which are of interest to a wide international audience.

British Books

Engineering Mathematics

New Syllabus Mathematics (NSM) is a series of textbooks specially designed to provide valuable learning experiences to engage the hearts and minds of students sitting for the GCE O-level examination in Mathematics. Included in the textbooks are Investigation, Class Discussion, Thinking Time, Journal Writing, Performance Task and Problems in Real-World Contexts to support the teaching and learning of Mathematics. Every chapter begins with a chapter opener which motivates students in learning the topic. Interesting stories about Mathematicians, real-life examples and applications are used to arouse students' interest and curiosity so that they can appreciate the beauty of Mathematics in their surroundings. The use of ICT helps students to visualise and manipulate mathematical objects more easily, thus making the learning of Mathematics more interactive. Ready-to-use interactive ICT templates are available at [http://www.shinglee.com.sg/ StudentResources/](http://www.shinglee.com.sg/StudentResources/)

New Syllabus Mathematics 'O' Level

New Syllabus Mathematics Workbook (Express) is written in line with the new Singapore-Cambridge GCE ~~O~~ Level Examination and

the new initiatives of the Ministry of Education. The workbook consists of exercises which prepare students for their examinations. The more difficult questions are marked with an *. To encourage student-centred learning, the workbook includes non-routine types of worksheets that are classified under the section, Alternative Assessment. These worksheets encourage students to learn independently through carefully-guided steps and the use of IT. Students are motivated to investigate mathematical concepts with various methods and think critically, so that they will understand and appreciate the concepts better. The teacher can gauge the students' learning by assessing the work with the scoring rubric found at the end of the relevant worksheets. The workbook is accompanied with a CD-ROM that contains templates to be used with some worksheets. It is hoped that with the use of various pedagogies, different types of students will be inspired to achieve success in mathematics.

GCSE OCR Additional Science Foundation Success Revision Guide

Dieses auf vier Bände angelegte Werk ist eine Geschichte der "Institution Universität" in Europa von ihrer Entstehung im Mittelalter bis in die heutige Zeit und zugleich eine vergleichende Geschichte der europäischen Universitäten sowie der

außereuropäischen Universitäten, die nach europäischem Muster gegründet worden sind. Es wird auf Initiative der europäischen Rektorenkonferenz (CRE), der über 500 wissenschaftliche Hochschulen in 27 europäischen Staaten angehören, von einem internationalen Komitee namhafter Wissenschaftler unter dem Vorsitz von Walter Rüegg (Schweiz) herausgegeben. Absicht dieses Gemeinschaftswerkes ist es, die gesellschaftlichen Rahmenbedingungen und Aufgaben, die Merkmale geistiger und institutioneller Identität, die Strukturen, Gestaltungen und Hauptprobleme der europäischen Universitäten in ihren geschichtlichen Grundlagen und Veränderungen, aber auch in ihren regionalen Unterschieden, auf dem heutigen Forschungsstand vergleichend und zusammenfassend darzustellen.

GCSE OCR Science Higher Success Revision Guide

This title in the Success Guides series covers maths at AS level. Covering every topic on a colourful and highly illustrated double-page spread, Success Guides use unique design and presentation to make revision simple and effective. Key points are clearly highlighted throughout and examiners' tips emphasize common mistakes or areas of importance. At the end of every topic a quick test recaps the main areas to ensure that students have understood the points covered.
