John Steinbeck is one of the most popular and important writers in American literature. Novels such as *The Grapes of Wrath*, *Of Mice and Men*, and *East of Eden* and the journal *Travels with Charley* convey the core of Steinbeck’s work—fiction that is reflective and compassionate. The Nobel prize winner cared deeply about people, and his writing captured the spirit, determination, and willingness of individuals to fight for their rights and the rights of others. His art of caring is critical for today’s readers and as a touchstone for our collective future. In *Citizen Steinbeck: Giving Voice to the People*, Robert McParland explains how the author’s work helps readers engage in moral reflection and develop empathy. McParland also looks at the ways educators around the world have used Steinbeck’s writings—both fiction and nonfiction—to impart ideals of compassion and social justice. These ideals are weaved into all of Steinbeck’s work, including his journalism and theatrical productions. Drawing on these texts—as well as interviews with secondary-level teachers—this book shows how Steinbeck’s work prompts readers to think critically and contextually about our values. Demonstrating the power a single author can have on generations of individuals around the world, *Citizen Steinbeck* enables readers to make sense of both the past and the present through the prism of this literary icon’s inspirational work.

Drawing from observations of discussion in 24 different classrooms, this book will provide preservice and inservice teachers at the middle and school levels with the motivation and knowledge to use discussion to foster student comprehension of content area text assignments. The first chapter examines the distinctions between discussion and recitation, and redefines major issues related to content area discussion in light of recent research and school reform reports. The second chapter establishes a basis for the premise that discussion is important to the development of reading

comprehension, illustrating those skills that enrich or refine students' understanding of text. The third chapter uses portions of transcripts from videotaped content class discussions to illustrate how classroom context influences discussion practices. Alternatives to teacher dominated discussions are described, and guidelines are provided for establishing the rights and responsibilities of critical readers. The fourth chapter demonstrates how to plan for classroom discussion of assigned material, describing five aspects of the planning process. The fifth chapter presents discussion strategies that help students master the content, examine more than one side of the issue, and evaluate alternative solutions to a text based problem, while the sixth chapter analyzes one content area teacher's implementation of a preplanned discussion. Finally, the seventh chapter describes two procedures for informally evaluating classroom discussion used to promote reading comprehension. References follow each chapter. (HTH)

»Die Brautprinzessin« ist ein raffiniertes Abenteuer und eine atemlose, clevere Romanze. Traurig und hinterlistig, verspielt, blutig und zeitlos. Wahnsinnig. Und wunderschön. »Ich bin dein Prinz und du musst mich heiraten«, sagte Humperdinck. »Ich bin Eure Dienerin und lehne ab«, flüsterte Butterblume. »Ich bin der Prinz, und du kannst nicht ablehnen.« »Ich bin Eure sehr ergebene Dienerin, und ich habe eben abgelehnt.« »Weigerung bedeutet Tod.« »Dann tötet mich.« Bis Herbst 2008 wurde das Buch seit dem ersten Erscheinen bereits 100.000 mal verkauft.

Language, both spoken and written, is key to understanding learning processes in the classroom. Research Methods for Classroom Discourse is for those who want to investigate spoken interaction or other discourse in the classroom. It lays out clearly the different

approaches which are possible, identifying the key principles of each. It addresses the differences between them and the consequences these differences might have for teachers and researchers. Each approach is outlined in terms of practical methods advice, reasons for use, and case studies in which the approach has been used in classroom discourse. Common approaches such as conversation analysis, positioning theory, and critical discourse analysis are included alongside more specialised approaches such as discursive psychology and corpus linguistics. The context of classroom research is used to frame all discussions, with connections to other uses and applications where it can enhance the research being undertaken. The authors demonstrate the relationship between these different theoretical approaches through considering particular applications to common topics within classroom research, such as multilingual learners, knowledge/ knowing and identity. The authors assume no prior knowledge of technical terms and a glossary of key term terms is included. Practical issues such as ethics, data collection and transcription are an integral part of the discussion throughout, providing students with all the knowledge needed to embark upon a successful research project in this area.

This book has a dual purpose: to identify problems faced by people who teach in correctional institutions and to propose solutions for those problems. The intent of this book is to help both new instructors as well as current ones perform their jobs effectively. The book is divided into three parts. The first part introduces the reader to the field of correctional education, describing correctional efforts in America, the kinds of facilities, the inmate populations, and the controversies, including advocates and critics, over providing educational opportunities. A description is provided on the kinds of educational and rehabilitation programs, including the varieties and sources of teachers and administrators. Part two explores the teaching process and how students are analyzed on their abilities, learning disorders, gender, ethnicity, gang membership, length of imprisonment, and reasons for enrolling in educational programs. Each chapter is divided into two major sections: the first section studies the perspective and the second section concerns problems

and solutions. Each problem is posed as a brief case study that includes the nature of a particular problem, factors affecting decisions about what a teacher might do, and one or more proposed solutions. Part three summarizes key concepts from the previous chapters and speculates about the state of correctional education in the years ahead. It will be of interest to those who contemplate a career in correctional education, those who are already in correctional education, or those who simply want to learn what teaching in a prison, jail, or juvenile facility is all about.
