## Learning Strategies in Second Language Acquisition

In keeping with the spirit of the first edition, Teaching ESL Composition: Purpose, Process, and

Practice, Second Edition presents pedagogical approaches to the teaching of ESL composition in the framework of current theoretical perspectives on second language writing processes, practices, and writers. The text as a whole moves from general themes to specific pedagogical concerns. A primary goal is to offer a synthesis of theory and practice in a rapidly evolving community of scholars and professionals. The focus is on providing apprentice teachers with practice activities that can be used to develop the complex skills involved in teaching second language writing. Although all topics are firmly grounded in reviews of relevant research, a distinguishing feature of this text is its array of hands-on, practical examples, materials, and tasks, which are presented in figures and in the main text. The synthesis of theory and research in a form that is accessible to preservice and in-service teachers enables readers to see the relevance of the field's knowledge base to their own present or future classroom settings and student writers. Each chapter includes: *Questions for Reflection--pre-reading questions that invite readers to consider their own prior experiences as students and writers and to anticipate how these insights might inform their own teaching practice; *Reflection and Review--follow-up questions that ask readers to examine and evaluate the theoretical information and practical suggestions provided in the main discussion; and *Application Activities--a range of hands-on practical exercises, such as evaluating and synthesizing published research, developing lesson plans, designing classroom activities, executing classroom tasks, writing commentary on sample

student papers, and assessing student writing. The dual emphasis on theory and practice makes this text appropriate as a primary or supplementary text in courses focusing on second language writing theory, as well as practicum courses that emphasize or include second language writing instruction or literacy instruction more generally. New in the Second Edition: *updated research summaries consider new work that has appeared since publication of the first edition; *revised chapter on research and practice in the use of computers in second language writing courses covers recent developments; *streamlined number and type of Application Activities focus on hands-on practice exercises and critical analysis of primary research; and *revisions throughout reflect the authors' own experiences with the text and reviewers' suggestions for improving the text.

## Exploring the Dynamics of Second Language Writing

Die Ausbildung der Schreibkompetenz in der ersten Fremdsprache (Englisch) stellt eine Herausforderung für viele Lehrkräfte in der Sekundarstufe I dar und soll Schwerpunkt dieser Arbeit sein. Die theoretische Vorarbeit umfasst die Vorstellung von Modellen zur Erklärung von Schreibleistungen, die Analyse der Bildungsstandards für die erste Fremdsprache in Bezug auf

diese Kompetenz sowie die Vorstellung von Ansätzen zur Schreibkompetenzvermittlung im Englischunterricht unter besonderer Berücksichtigung von prozessorientierten Ansätzen und Klassifikationen von Rückmeldungen und Revisionen. Im zweiten Teil werden die Ergebnisse von drei empirischen Studien vorgestellt. In der ersten Studie werden zwei Ansätze zur Zuordnung von Schreibleistungen zum Europäischen Referenzrahmen für Sprachen verglichen. Die zweite Studie, die im Rahmen der Normierungsstudie am Institut zur Qualitätsentwicklung (IQB) stattfand, untersucht mehr als 1.000 Englischlerner in der Sekundarstufe I und ihre Lehrkräfte. Der Fokus der Analysen liegt auf der Identifikation von Zusammenhängen zwischen Merkmalen des Unterrichts, Schreibleistungen und motivationalen Faktoren der Schülerinnen und Schüler. In der dritten Studie werden die Bewertungen zu Textproduktionen von Acht- und Neuntklässlern verglichen, welche einen Brief auf Deutsch und Englisch verfassten. Abschließend werden Erkenntnisse der theoretischen und empirischen Arbeit diskutiert und ein schulisches Modell zum (fremdsprachlichen) Schreiben vorgestellt.

## Second Language Writing

'I applaud the authors for this sizeable undertaking, as well as the care exercised in selecting and

sequencing topics and subtopics. A major strength and salient feature of this volume is its range: It will serve as a key reference tool for researchers working in L2 composition and in allied fields.' – John Hedgcock, Monterey Institute for International Studies Synthesizing twenty-five years of the most significant and influential findings of published research on second language writing in English, this volume promotes understanding and provides access to research developments in the field. Overall, it distinguishes the major contexts of English L2 learning in North America, synthesizes the research themes, issues, and findings that span these contexts, and interprets the methodological progression and substantive findings of this body of knowledge. Of particular interest is the extensive bibliography, which makes this volume an essential reference tool for libraries and serious writing professionals, both researchers and practitioners, both L1 and L2. This book is designed to allow researchers to become familiar with the most important research on this topic, to promote understanding of pedagogical needs of L2 writing students, and to introduce graduate students to L2 writing research findings.

## Pragmatics and its Applications to TESOL and SLA

Concise Encyclopedia of Applied Linguistics formalizes, organizes and analyzes the relation of

knowledge about language to decision-making in practice. It synthesizes research in psycholinguistics, educational linguistics and sociolinguistics, freely crossing subject fields to establish innovative and expert responses to some of the key debates in the field. Authored and compiled by leaders in their various specialties and collated and extensively re-edited from the award-winning Encyclopedia of Language and Linguistics, Second Edition, this collection will be an ideal one-stop desk reference solution for any linguistics professional and researcher interested in how language operates at the leading edge. Authoritative review of this dynamic field placed in an interdisciplinary context Over 100 articles by leaders in the field Compact and affordable single-volume format

## Applied Linguistics and Language Teacher Education

Applied Linguistics and Language Teacher Education is aimed at applied linguists who are interested in understanding more about the learning of novice teachers in their classes. The 21 studies in this volume provide information on the complexity of novice teachers learning and use of knowledge in a variety of applied linguistics classes such as SLA, Syntax, Pragmatics, Sociolinguistics, Phonetics and Phonology, L2 Reading and Writing, Testing, and Content Based

Instruction. These studies were conducted in a variety of contexts, from North and South America to Europe, Asia and Australia, and look at the preparation of teachers of English, Spanish and Chinese. The book also includes a state-of-the-art summary of research on knowledge acquisition and use which provides applied linguists with a solid basis for developing their ideas about their students learning and use of the knowledge presented in their classes.

## Replication Research in Applied Linguistics

The Handbook of Second and Foreign Language Writing is an authoritative reference compendium of the theory and research on second and foreign language writing that can be of value to researchers, professionals, and graduate students. It is intended both as a retrospective critical reflection that can situate research on L2 writing in its historical context and provide a state of the art view of past achievements, and as a prospective critical analysis of what lies ahead in terms of theory, research, and applications. Accordingly, the Handbook aims to provide (i) foundational information on the emergence and subsequent evolution of the field, (ii) state-of-the-art surveys of available theoretical and research (basic and applied) insights, (iii) overviews of research methods in L2 writing research, (iv) critical reflections on future developments, and (iv)

explorations of existing and emerging disciplinary interfaces with other fields of inquiry.

## Proceedings of the Applied Linguistics and Language Teaching Conference 2019 : Engaging in Change: New Perspectives of Teaching and Learning

This book brings together top scholars on different sides of the important scholarly debate between the translingual movement and the field of second language writing. Drawing on a wide range of perspectives, this volume examines the differences in theory and practice with the hope of promoting reconciliation between the two schools of thought. Chapters address the tensions in the relationship between translingualism and second language writing and explore programs, pedagogies, and research that highlight commonalities between the two camps. With contributions from leading scholars, this book comprehensively addresses the issues related to this contentious debate and offers ways to bring the two camps into conversation with one another in a way that promotes effective teaching practices. By providing a panoramic view of the current situation, the text is a timely and unique contribution to TESOL, applied linguistics, and composition studies.

## Writing in Foreign Language Contexts

An Introduction to Applied Linguistics, Second Edition provides a complete, authoritative and up-to-date overview of the state of the field. Each of the 15 chapters offers an extended survey of a central element of Applied Linguistics and is co-authored by two leading international specialists, thus ensuring a full and balanced treatment of the topic covered. The book is divided into three sections: a description of language and language use; essential areas of enquiry; and the four skills and testing. An Introductory chapter familiarises readers with key issues and recurrent themes whilst hands-on activities and further reading sections for each chapter encourage practical analysis and wider reading. For this new edition, each chapter has been fully revised in line with new research and thinking in Applied Linguistics. With its accessible style, broad coverage and practical focus, this book is ideal for students of applied linguistics, TESOL, and second language pedagogy as well as practicing teachers and researchers wishing to update their knowledge.

## Discourse and Context in Language Teaching

This book represents the most comprehensive account to date of foreign language (FL) writing. Its basic aim is to reflect critically on where the field is now and where it needs need to go next in the exploration of FL writing at the levels of theory, research, and pedagogy, hence the two parts of the book: 'Looking back' and 'Looking ahead'. The chapters in Part I offer accounts of both the inquiry process followed and the main insights gained in various long-term research programs. The chapters in Part 2 contribute a retrospective analysis of the available empirical research and of professional experiences in an attempt to move forward. The book invites the reader to step back and rethink seemingly well established knowledge about L2 writing in light of what is known about writing in FL contexts.

## Sprachwissenschaft und Fremdsprachenunterricht

## Teaching ESL Composition

In this original volume, eighteen researchers from different parts of the world reflect on their own research projects, providing insights into key methodological issues in research on second

language writing. By offering a glimpse into the process of constructing and negotiating knowledge in the field--the messy space of situated practices of inquiry--it helps to demystify the research process, which can appear in published studies and in introductory methodology guides to be neater and more orderly than it actually is. Taking a broad conception of research as inquiry that emphasizes the situated and constructed nature of knowledge in the field, Second Language Writing Research: Perspectives on the Process of Knowledge Construction encourages multiple forms of inquiry, including philosophical, narrative, and historical modes. Empirical inquiry as presented in this book encompasses both quantitative and qualitative approaches as well as those that strategically combine them. A helpful discussion of the "nuts and bolts" of developing sustainable research programs is also provided. The volume as a whole facilitates a situated, issue-driven research practice. Its unique focus on second language writing research makes it an invaluable resource for both novice and experienced researchers in the field.

## Advanced Writing in English as a Foreign Language

This volume contains a selection of eighteen articles that originated as papers presented at the Second Applied Linguistics and Language Teaching International Conference and Exhibition

(ALLT): Engaging in Change: New Perspectives of Teaching and Learning which was held from 7 to 9 March 2019 at Zayed University, Dubai, United Arab Emirates. The papers selected for inclusion showcase contributions that document theory, research, and pedagogy within the field of ALLT in the Arab Gulf and beyond. The volume is divided into five sections: · Teaching of Language Skills and Subskills · Student Engagement, Motivation and Wellbeing · Curriculum Development and Pedagogy · English Language Teaching and Technology · Language-Based and Classroom-Based Research The papers included in this volume represent the diverse backgrounds, experiences, and research interests of the ALLT presenters. The contributions are a mix of theoretical, empirical and pedagogical practices with a strong emphasis on language teaching. While most of the papers in the proceedings focus on English language, the findings gained and lessons learned are also useful to the teaching of any language. This makes the Proceedings of the Applied Linguistics and Language Teaching (ALLT 2019) Conference: Engaging in Change: New Perspectives of Teaching and Learning an invaluable resource, addressing important aspects of contemporary research topics and the pedagogy of language teaching

## Exploring Language Pedagogy through Second Language Acquisition

## Research

Theory has been used widely in the field of second language writing. Second language writing specialists—teachers, researchers, and administrators—have yet to have an open and sustained conversation about what theory is, how it works, and, more important, how to practice theory. Practicing Theory in Second Language Writing features fourteen essays by distinguished scholars in second language writing who explore various aspects of theoretical work that goes on in the field.

## Schreibkompetenzvermittlung im Englischunterricht in der Sekundarstufe I. Empirische Analysen zu Leistungen, Einstellungen, Unterrichtsmethoden und Zusammenhängen von Leistungen in der Mutter- und Fremdsprache

The field of applied linguistics covers a diverse range of research and practice, and has developed somewhat differently in various parts of the world due to variations in local socio-cultural conditions, needs and issues. However, this local diversity does not reflect a field that is incoherent, but rather one which has a broad, shared international agenda which is invigorated by

the diversity brought to the field by local perspectives. The papers in this volume represent some of the major global directions that research in applied linguistics is taking and shed light on how language is used to affect practice. The aim of this volume is to explore some of the key methods and issues which are guiding applied linguistics into the future through an examination of these issues in local contexts, thereby providing a basis for understanding the global directions the field is taking. These directions follow two historically defined paths: those related to educational studies and language teaching, and those related to social issues involving language. In the volume, half the papers focus on the former, examining issues of language teaching, language teacher education and second language acquisition, while the other half examine social issues related to language use, bilingualism and multilingualism, and language policy and planning. The collection of papers presented in this book illustrates how these traditional themes are influenced by the rising forces of globalisation and the use of technology, thus exemplifying both the new and old ways in which the study of language is realised.

## The Oxford Handbook of Applied Linguistics

On Second Language Writing brings together internationally recognized scholars in a collection of

original articles that, collectively, delineate and explore central issues with regard to theory, research, instruction, assessment, politics, articulation with other disciplines, and standards. In recent years, there has been a dramatic growth of interest in second-language writing and writing instruction in many parts of the world. Although an increasing number of researchers and teachers in both second-language studies and composition studies have come to identify themselves as specialists in second-language writing, research and teaching practices have been dispersed into several different disciplinary and institutional contexts because of the interdisciplinary nature of the field. This volume is the first to bring together prominent second-language writing specialists to systematically address basic issues in the field and to consider the state of the art at the end of the century (and the millennium).

## Reconciling Translingualism and Second Language Writing

The essays and research papers in this collection explore current issues in Language Education, English for Academic Purposes, Contrastive Discourse Analysis, and Language Policy and Planning, and outline promising directions for theory and practice in applied linguistics. The collection also honours the life-long contribution of Robert B. Kaplan to the field.

## Interfaces Between Second Language Acquisition and Language Testing Research

Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics, primarily designed for those beginning postgraduate studies, or taking an introductory MA course as well as advanced undergraduates. Titles in the series are also ideal for language professionals returning to academic study. The books take an innovative 'practice to theory' approach, with a 'back-to-front' structure. This leads the reader from real-world problems and issues, through a discussion of intervention and how to engage with these concerns, before finally relating these practical issues to theoretical foundations. Additional features include a glossary of key terms, and discussion questions. Following the back-to-front approach of the series, the book takes problematic issues in language pedagogy as its starting points. These are then examined in terms of second language acquisition. Each chapter begins with a look at the pedagogical proposals found in teacher guides and then asks 'Do these proposals accord with what we know about how languages are acquired?' Pedagogical topics covered include teaching methods, syllabus design, explicit instruction, comprehension versus production-based instruction, task-based instruction, authentic materials, the role of the learners'

first language in the classroom, error correction and catering for individual differences. Including a glossary of key terms and questions for discussion at the end of each chapter, and assuming no prior knowledge of second language acquisition, this is the ideal text for all students studying language teaching methods, language teacher education, English teaching methodology and second language acquisition modules in advanced undergraduate and postgraduate/graduate TESOL and Applied Linguistics courses.

## Corpus-based Research in Applied Linguistics

Explores the wide range of scholarship on revision while bringing new light to bear on enduring questions in composition and rhetoric.

## Second Language Writing

In the three volumes of Major Trends in Theoretical and Applied Linguistics, the editors guide the reader through a well-selected compendium of works, presenting a fresh look at contemporary linguistics. Specialists will find chapters that contribute to their fields of interest, and the three-

volume collection will provide useful reading for anyone interested in linguistics. The first volume explores theoretical issues dealing with phonetics-phonology and syntax-semantics-morphology. Volume two is organized into three main sections that examine interdisciplinary linguistics: discourse analysis, gender and lexicography; language acquisition, and language disorders. Finally, volume three focuses on applied linguistics - both language teaching/ learning and education.

## An Introduction to Applied Linguistics

This text is a highly accessible and authoritative approach to the theory and practice of teaching writing to students of English.

## Fremdsprachen Lehren und Lernen

This book describes the current psycholinguistic research being conducted internationally on better understanding second language (L2) writing. It is based on an experimental research tradition arising from recent progress made in methodology, technology and theory in both native

and second language writing. It is unique in that it is specifically geared to better understanding L2 writing and how it relates to L1 writing research in the psycholinguistic tradition.

## New Directions for Research in L2 Writing

The Routledge Handbook of Second Language Acquisition and Pedagogy of Persian offers a detailed overview of the field of Persian second language acquisition and pedagogy. The Handbook discusses its development and captures critical accounts of cutting edge research within the major subfields of Persian second language acquisition and pedagogy, as well as current debates and problems, and goes on to suggest productive lines of future research. The book is divided into the following four parts: I) Theory-driven research on second language acquisition of Persian, II) Language skills in second language acquisition of Persian, III) Classroom research in second language acquisition and pedagogy of Persian, and IV) Social aspects of second language acquisition and pedagogy of Persian. The Routledge Handbook of Second Language Acquisition and Pedagogy of Persian is an essential reference for scholars and students of Persian SLA and pedagogy as well as those researching in related areas.

## On Second Language Writing

The only book available dedicated to the theory and practice of replication research in Second Language Acquisition and Applied Linguistics. A replication study repeats a previous study to discover if its findings are reliable and/or can be generalised to other circumstances. This edited volume brings together a number of experts who argue in favour of a more central role for replication research in Second Language Acquisition and Applied Linguistics. The book provides a theoretical argument to support this view, as well as practical examples and model replication studies. It includes advice on how best to set up and execute replication research, and how to write up the findings for presentation to a journal. A paperback version is available separately.

## Revision

A concise introduction to the field of theoretical pragmatics and its applications in second language acquisition and English-language instruction Pragmatics and its Applications to TESOL and SLA offers an in-depth description of key areas of linguistic pragmatics and a review of how those topics can be applied to pedagogy in the fields of second language acquisition (SLA) and teaching English to speakers of other languages (TESOL). This book is an excellent resource for students and professionals who have an interest in teaching pragmatics (speech acts, the cooperative principle, deixis, politeness theory, and more) in second language contexts. This book introduces technical terminology and concepts—including the fundamentals of semantics and semiotics—in simple language, and it provides illuminating examples, making it an excellent choice for readers with an elementary linguistics background who wish to further their knowledge of pragmatics. It also covers more advanced pragmatics topics, including stance, indexicality, and pragmatic appropriateness. Key features include: A comprehensive introduction to

pragmatics, covering meaning, speech acts, the cooperation principle, politeness, metapragmatics, and more A unique orientation toward practical application in second language acquisition studies and English-language instruction Two-part chapters clearly separating theoretical introductions from concrete, real-world applications of the theory Thorough coverage that is accessible to both students and professionals currently teaching English to speakers of other languages, including sample lesson plans Practical chapters on the interface between pragmatics and teaching, and on research design Pragmatics and its Applications to TESOL and SLA is a comprehensive and coherent introduction, perfect for students, researchers, and scholars of pragmatics, second language acquisition, language teaching, and intercultural communication. It is also an excellent resource for professionals in the field of English-language education.

## Georgetown University Round Table on Languages and Linguistics (GURT) 1991: Linguistics and Language Pedagogy

Offers a wide-ranging overview of the issues and research approaches in the diverse field of applied linguistics Applied linguistics is an interdisciplinary field that identifies, examines, and seeks solutions to real-life language-related issues. Such issues often occur in situations of language contact and technological innovation, where language problems can range from explaining misunderstandings in face-to-face oral conversation to designing automated speech recognition systems for business. The Concise Encyclopedia of Applied Linguistics includes entries on the fundamentals of the discipline, introducing readers to the concepts, research, and methods used by applied linguists working in the field. This succinct, reader-friendly volume offers a collection of entries on a range of language problems and the analytic approaches used to address them. This abridged reference work has been compiled from the most-accessed entries from The Encyclopedia of Applied Linguistics (www.encyclopediaofappliedlinguistics.com), the more extensive volume which is available in print and digital format in 1000 libraries spanning 50 countries worldwide. Accessible for readers who are new to applied linguistics, The Concise Encyclopedia of Applied Linguistics: Includes entries written by experts in a broad range of areas within applied linguistics Explains the theory and research approaches used in the field for analysis of language, language use, and contexts of language use Demonstrates the connections among theory, research, and practice in the study of language issues Provides a perfect starting point for pursuing essential topics in applied linguistics Designed to offer readers an introduction to the range of topics and approaches within the field, The Concise Encyclopedia of Applied Linguistics is ideal for new students of applied linguistics and for researchers in the field.

## Lexical Errors and Accuracy in Foreign Language Writing

Volume III of the Handbook of Research in Second Language Teaching and Learning, like Volumes I and II, is a comprehensive, state-of-the-art overview of current research into social contexts of second language (L2)/foreign language (FL) teaching and learning; language policy; curriculum; types of instruction; incremental language skills such as listening, speaking, reading,

writing, vocabulary, and grammar; international communication; pragmatics; assessment and testing. It differs from earlier volumes in its main purpose—to provide a more in-depth discussion and detailed focus on the development of the essential language skills required for any type of communication: speaking, listening, reading, vocabulary, grammar, and writing. Volume III preserves continuity with previous volumes in its coverage of all the classical areas of research in L2/FL teaching and learning and applied linguistics, but rather than offering a historical review of disciplinary traditions, it explores innovations and new directions of research, acknowledges the enormous complexity of teaching and learning the essential language abilities, and offers a diversity of perspectives. Chapter authors are all leading authorities in their disciplinary areas. What's new in Volume III? Updates the prominent areas of research, including the sub-disciplines addressed in Volumes I and II, and represents the disciplinary mainstays Considers and discusses perspectives held by different schools of thought on the what, the how, and the why of teaching foundational language skills, including theories, pedagogical principles, and their implementation in practice Captures new and ongoing developments and trends in the key areas of L2/FL teaching and learning, and innovative research topics that have gained substantial recognition in current publications, including the role of corpora, technology, and digital literacy in L2/FL teaching and learning Examines new trends in language pedagogy and research, such as an increased societal emphasis on teaching academic language for schooling, somewhat

contradictory definitions of literacy, and the growing needs for instruction in intercultural communication.

## Schreiben im Beruf als Handeln im Fach

Recommends that language teachers incorporate discourse and pragmatics in their teaching if they wish to implement a communicative approach in their classrooms. The authors show how a discourse perspective can enhance the teaching of traditional areas of linguistic knowledge and language skills.

## The Routledge Handbook of Second Language Acquisition and Pedagogy of Persian

Second language acquisition (SLA) and language testing (LT) research have largely been viewed as distinct areas of inquiry in applied linguistics. This book provides a fresh look at areas of common interest to both SLA and LT research, and ways in which research in these two areas of applied linguistics can be fruitfully integrated.

## The Concise Encyclopedia of Applied Linguistics

This volume comprises nine contributions that were written by up-and-coming corpus-based researchers with varied areas of expertise, who were all disciples of Douglas Biber sometime in the past two decades. These papers cover a wide variety of linguistic analyses and describe the principles of the Flagstaff school: a careful procedure for language corpora collection with special consideration for corpus size, representativeness, sampling and systematic analysis; the use of computer programming abilities that allow the posing of corpus-based research questions never asked before; and a strong emphasis on the combination of quantitative methods based on sound and innovative statistical procedures complemented with comprehensive qualitative functional analyses of the language. This volume has been edited in honor of Douglas Biber, a pioneer of the American school of corpus-based research.

## A Synthesis of Research on Second Language Writing in English

Provides an accessible, comprehensive and practical introduction to current theory and research in second language writing and their classroom applications.

## Second Language Writing Research

Lexical errors are a determinant in gaining insight into vocabulary acquisition, vocabulary use and writing quality assessment. Lexical errors are very frequent in the written production of young EFL learners, but they decrease as learners gain proficiency. Misspellings are the most common category, but formal errors give way to semantic-based lexical errors as proficiency increases, likewise, the direct influence of the L1 also reduces in favour of more elaborated transfer mechanisms and L2 influence. The different categories of lexical errors indicate the stage of learning. This book uses a study of young EFL learners to suggest that lexical accuracy is a crucial component of writing assessment, and that lexical errors are useful in predicting writing quality.

## Concise Encyclopedia of Applied Linguistics

The book addresses issues in the field of teaching academic writing to non-native speakers. This book provides a series of discussions about multiple aspects of second language writing, presenting chapters that collectively address a range of issues that are important to new teachers

at the post-secondary level. The 13 chapters provide scholarly visions, insight, and interpretation, oriented toward explaining the field of teaching academic writing to non-native speakers. The book is designed to provide foundational content-knowledge in this area, with each chapter authored by recognized experts in the field. In addition to helping train new teachers, the book will serve as an updated reference book for practicing teachers and scholars to consult.

## Second Language Writing (Cambridge Applied Linguistics)

This text is a highly accessible and authoritative approach to the theory and practice of teaching writing to students of English.

## Future Directions in Applied Linguistics

Ziel des vorliegenden Bandes ist es, Interdependenzen zwischen Sprachwissenschaft und Fremdsprachendidaktik aufzuzeigen. Besondere Berücksichtigung finden dabei Fragen des Spracherwerbs sowie der Entwicklung, Förderung und Evaluation von Sprachkompetenzen. Die im Rahmen des 2. Osnabrücker Symposiums (2013) entstandenen Beiträge diskutieren die

Verbindungen zwischen beiden Disziplinen unter vier Aspekten: Wie lassen sich sprachwissenschafltiche Erkenntnisse zum Spracherwerb für die Konzeption von Fremdsprachenunterricht nutzbar machen? Welche vermittelnden Transformationen von Forschungsergebnissen der Sprachwissenschaft in didaktische Modelle und Konzepte zur gezielten Entwicklung und Förderung von Sprachkompetenzen bieten sich an? Welche spezifischen Eigenheiten der Fremdsprache sollten im Fokus vermittelnder Transformation stehen? Und schließlich: Wie ist es um ausgewählte Sprachkompetenzen schulischer Fremdsprachenlerner bestellt?
