To upend the world order and reorganize geopolitics on the basis of archaic values rather than modern ideals of democracy, freedom, social progress, and human rights. Their strenuous efforts are already producing results, from the fortification of borders throughout the world and the targeting of immigrants, to the undermining of the European Union and United States…

15.03.2022 In the dollars of that era, the economist Adam Tooze wrote in his book “The Deluge,” Russia’s debts ran to “$4.92 billion piled up in…

15.02.2022 Why the Battle for Tech Matters. The threat that big tech poses to democracy is multifaceted. First, major social media platforms — Twitter, Facebook, Google and others — curate, promote and curtail information received by and, indeed, even the opinions of citizens in democratic societies.

16.03.2022 Germany’s newfound mettle, which has been welcomed across Europe, was by no means guaranteed. For decades, Germany’s approach to geopolitics had emphasized rapprochement and economic engagement, with its Russia policy representing a kind of misguided continuation of the Federal Republic’s Cold War-era Ostpolitik.

Using the story of the “West and the world” as its backdrop, this book provides for beginning students a clear and concise introduction to Human Geography, including its key concepts, seminal thinkers and their theories, contemporary debates, and celebrated case studies. Introduces and applies the basic concepts of human geography in clear, concise, and …

The Foundations of Geopolitics: The Geopolitical Future of Russia is a geopolitical book by Aleksandr Dugin. Its publication in 1997 was well received in Russia; it has had significant influence within the Russian military, police and foreign policy elites and has been used as a textbook in the Academy of the General Staff of the Russian military.

27.03.2022 Dugin’s most influential work, the 1997 book Foundations of Geopolitics, has been
adopted as a textbook in both the Russian military academy and state school system. Bearing a conspicuous resemblance to Thucydides’s comparison of Athens and Sparta, Dugin’s analysis holds that today’s contemporary Athenians are the “Atlanticists,” led by the U.S. and …

In his 1997 book, *Foundations of Geopolitics: The Geopolitical Future of Russia*, Dugin explicitly formulates an axis of Russia, Germany, Iran and Japan to counter American hegemony, to the 15.03.2022. This book, by Stewart Paterson, describes the unintended consequences of the policy of engagement that led to China’s accession to the WTO in 2001, and aims to equip policymakers, business leaders and civil societies to contribute to the design of mutually beneficial approaches for sustainable global trade. 27.03.2022

In *Contingency, Irony, and Solidarity*, Rorty argued that the philosophers who claimed to mirror nature in their reason would do better to give up their belief in the natural foundations for their politics, and just get on with their work. No version of classical realism or neo-realism gives us the normative grounds to critique Putin’s expansionism and brutality. A06.03.2022

In *Foundations of Geopolitics*, which Dugin describes as a brief for Russian ambitions from “Dublin to Vladivostok,” the philosopher claims that “Ukraine as a state has no geopolitical meaning. It 24.02.2022

I’ve looked for an English translation of *Foundations of Geopolitics* for years but only ever come up with a poor AI translation (supposedly) on Amazon. I feel like I have to be missing something because that book does seem fundamental to what’s going on. In her book *The Gravity of Joy*, author and professor Angela Gorrell pulls from her own search for authentic Christian joy as she reflects on our collective need for a counteragent to despair. In her talk she will articulate a vision for communities that yearn for joy in response to tragedy and work together to find it. Learn more

Building *Foundations Against Corruption: Recommendations on Anti-Corruption in the Infrastructure & Urban Development Industries*. Bribery and corruption exist across all industries, but the engineering, construction and real estate sectors are particularly at risk, given the size, complexity and strategic importance. 28.03.2022

*Foundations of International Relations*. London: Bloomsbury. Below is a collection of multimedia and textual resources that help unpack, and explain, the importance of religion and culture and how they intersect. Basic overviews: Religion. Basic overviews: Culture. Academic debates about religion and culture. Nations under God: The Geopolitics of Faith in the Twenty … The Geopolitics of Dugin’s 1997 Book. Dugin’s militant views on geopolitics, as expressed in his 1997 “textbook,” presumably will strike Western readers as both crude and mad, representing a slight improvement over the ravings of Duma deputy speaker Vladimir Zhirinovskii. Although Dugin’s ideas and
prescriptions are indeed extreme, dangerous, and repellent, it should be... Geopolitics, International Politics Publisher: Basic Books Publication date: 1997: Pages: xiv + 223 pages ISBN: 0-465-02725-3: The Grand Chessboard: American Primacy and Its Geostrategic Imperatives (1997) is one of the major works of Zbigniew Brzezinski. Brzezinski graduated with a PhD from Harvard University in 1953 and became Professor of American...
