For most immigrant parents in America today, raising bilingual children is not a choice or a decision, but rather a way of life. Yet teaching children their parents' native language often comes second to ensuring they are proficient in English so they can thrive in school and later reach leadership positions in the workplace. In addition, the task of teaching two (or more) languages can be overwhelming, leaving many of us wondering where to start. Raising Bilingual Children is here to help with easy, practical steps for children of every age and stage in life. Author and parenting expert Mari Bellas provides answers to questions such as: What do I do when my five-year-old doesn't want to speak Spanish at home? My husband doesn't speak

Korean, so how do we find common ground to raise our kids with two languages? My child is two years old and not speaking in either of the two languages we speak at home—should I be concerned? Whether your native language is Spanish, Filipino, Korean, Chinese, or French, it is natural to want our children to communicate in the language we were born with. *Raising Bilingual Children* is the ultimate guidebook for busy parents looking for advice and direction about the everyday challenges and joys of raising a bilingual child.
