entitled The Ancient Hungarian decorative art. Mgr. Ernest Nyáry, Carmelite monk, archbishop of the Catholic Latin mission of Baghdad, a member of the Saint Congregation of the Orienta
Churches, awarded with the French Legion of Honor, approaching the age of 80 came to see his disciples, parents and friends living in Hungary for the last time, and than he transmitted
legacy in full to his brother Joseph's daughter, confiding her to preserve and manage it. Her father told many stories to Éva Nyáry about the romantic priest's carrier in her childhood. The
several long meeting with him in the eighties meant her extraordinary impressions. The recorded conversations, the writings published about the noble thinking, sainted monk, matured the
conception to share her impressions with readers. When she was handed over his diaries, texts, correspondence, photos and recorded memories, having his uncle's complete confidence,
she has already felt as an obligation to work this fantastic treasury up. Ernest Nyáry's history of life who was born in an ancient Hungarian noble family in Turcansky Peter, today Slovakia

Laing continues to be widely recognized by those in the psychotherapy community in the United States and Europe. Laing's books are a testament to his breadth of interests, including the understanding of madness, alternatives to conventional psychiatric treatment, existential philosophy and therapy, family systems, cybernetics, mysticism, and poetry. He is most remembered for his devastating critique of psychiatric practices, his controversial rejection of the concept of 'mental illness,' and his groundbreaking center for people in acute mental distress at Kingsley Hall, London. Most of the books that have been published about Laing have been written by people who did not know him personally and were unfamiliar with Laing the man and teacher. The Legacy of R. D. Laing: An appraisal of his contemporary relevance is composed by thinkers and practitioners who knew Laing intimately, some of whom worked with Laing. This collection of papers brings a perspective and balance to Laing's controversial ideas, some of which were never addressed in his books. There has never been a collection of papers that address so thoroughly the question of who Laing was and why he became the most famous psychiatrist in the world. As M. Guy Thompson's collection illustrates, there are now a number of alternatives to psychiatry throughout the world, and much of that can be credited to Laing's influence. The Legacy of R. D. Laing will ensure the reader has a keen grasp of who Laing was, what it was like to be his patient or his friend, and why his thinking was far ahead of its time, even in the radical era of the 1970s. It is timely to appraise the nature of his contribution and bring Laing back into contemporary conversations about the nature of sanity and madness, and more humane approaches to helping those in profound mental distress. This book offers an in-depth insight into the work of R.D. Laing. It will be a must read for psychoanalysts, psychotherapists, family therapists, psychiatrists and academics alike. M. Guy Thompson, PhD is a Personal and Supervising Analyst at the Psychoanalytic Institute of Northern California and Chairman of Free Association, Inc., a non-profit organization devoted to the dissemination of Laing's ideas, in San Francisco. Dr. Thompson received his psychoanalytic training from R. D. Laing and associates at the Philadelphia Association and is the author of numerous books and journal articles on psychoanalysis, phenomenology, and schizophrenia. He currently lives in San Rafael, California.Presents a series of scholarly papers on environmental issues facing the Mexican American Border Region, presented at the 1998 U.S./Mexico Border States Conference on Recreation, Parks, and Wildlife in Tucson.For nearly four decades social critics such as Philip Rieff and Christopher Lasch have bemoaned the "triumph of the therapeutic" in our "culture of narcissism." But whatever their level of uneasiness about the psychologizing of reality, most Christians have made some degree of peace with the reigning power of psychotherapy and psychotherapeutic outlooks. Seth Farber is not one of those Christians. In his estimation psychotherapy has become "a replacement for involvement in the spiritual life of the church," with pastors and other Christian leaders too quickly deferring to psychiatrists and other mental health professionals. Unholy Madness is prompted by Farber's passionate insistence that Christianity and psychiatry are nothing less than competing faiths. Farber's radical argument cuts to the root of the mental health system and challenges the church to consider how much it may have constricted its own vision and neglected its unique responsibilities in its accommodation to that system. Taking on giants from Augustine to the wide-ranging and never boring, Unholy Madness is not likely to persuade all its readers. But none will be able to see these issues in the same way again. -- Publisher.Flintshire, the northern

gateway to Wales, is a county rich in heritage. It is home to ancient artefacts, medieval buildings and country houses, and has had many fascinating residents such as the grand old man of politics, W.E. Gladstone, and the famous naturalist and writer, Thomas Pennant. As with much of Wales, Flintshire is also a place of myth and legends, from missing monks to maids in wells. This wonderful compendium of curious anecdotes and curiosities relates tales from the county's rich history. Splendidly illustrated, it is great for dipping into, but can equally be enjoyed from cover to cover. James M. Wilce's new textbook introduces students to the study of language as a tool in anthropology. This book examines the phenomenon of silence in relation to human behaviour from multiple perspectives, drawing on psychological and cultural-philosophical ideas to create new, surprising connections between silence, quiet and rest. Silence and being quiet are present in everyday life and in politics, but why do we talk about it so rarely? Silence can be cathartic and peaceful, but equally oppressive and unbearable. In the form of communication, we keep secrets to protect ourselves and others, but on the other hand subjects can be silenced with dictatorial posturing - a communicative display of power - and something can be literally 'hushed up' that needs to be disclosed. In unique and engaging style, Theodor Itten explores the multi-layered internal conversation on silence in relation to the self and emotions, demonstrating why it is sometimes necessary in our modern society. Describing and analyzing human behaviour in relation to silence, the book also draws on psychoanalytic ideas by outlining the power of silence in processing our emotions and relationships and hiding innermost

feelings. With rich narrative signposts providing thought-provoking and amusing insights, and interpersonal communication examined in relation to everyday life, this is fascinating reading students and academics in psychology, philosophy, cultural studies, and related areas. An international quarterly devoted to the physiological, psychological, psychiatric, sociological, and educational aspects of the second decade of human life.
