### *Vereinheitlichung des Rücksprunghärte-Prüfverfahrens*

*How could I have let Maxwell Brandt kiss me? I can't stand the arrogant, billionaire who treats women as if they were disposable, to be used then thrown away. Who the heck am I kidding? I'm just as bad because I kissed him back, with a hunger I've never known before. Despite the fact Max keeps coming back to entice me, I stand firm. I won't cheat on on Kevin, my fiance. I won't become that person, no matter how badly my body wants him. Until the moment Max drops a bomb that destroys everything. Kevin has been cheating. His words destroy the illusion I've been hiding behind, because I know he's telling the truth. Breaking things off with Kevin isn't nearly as painful as I thought it would be, my pride hurts more than my heart. All I want to do is hide and lick my wounds but Max demands I fulfill the promise of that kiss, in a rush of anger, pain, and hunger, I give in. The feeling of being wanted by a man like Max wiping away the humiliation of Kevin's betrayal. Maybe a fling, a rebound affair, is exactly what I need. No promises, no expectations, and no broken heart. At least, that's the way it started.*

### *The Rebound Girl*

*A ranch for the runaway bride Weeks before her wedding, Emily Weber walks away from her planned society shindig and her cheating fiancé—straight to her cousin's New Mexico ranch. Everyone's advice: Emily's got to work it out of her system, and her childhood acquaintance—all six feet of dark good looks—is just the guy to help. Colin Talbot recognizes someone on the run from their life. Hell, the rootless photojournalist hasn't been on his ranch in years, till now. But he's not about to indulge in a promise of pleasure, not with a potential for disaster. Emily still wants marriage and babies; he can't wait to bolt. So he'll keep his distance before she has him wanting what he can't have: a family and a forever love.*

### *The Rebound Effect in Home Heating*

*This is a definitive guide to the rebound effect in home heating – the increase in energy service use after a technological intervention aimed at reducing consumption. It sets out what the effect is, how it plays out in the home heating sector, what this implies for energy saving initiatives in this sector, and how it relates to rebound effects in other sectors. The book outlines how the concept of the rebound effect has been developed and the scope of research on it, both generally and particularly in the home heating sector. Within the context of energy and CO2 emissions policy, it summarises the empirical evidence, exploring its causes and the attempts that are being made to mitigate it. Various definitions of the rebound effect are considered, in particular the idea of the effect as an energy-efficiency 'elasticity'. The book shows how this definition can be rigorously applied to thermal retrofits, and to national consumption data, to give logically consistent rebound effect results that can be coherently compared with those of other sectors, and allow policy makers to have more confidence in the predictions about potential energy savings.*

### *The Economics of Conservation Programs*

*This is a definitive guide to the rebound effect in home heating – the increase in energy service use after a technological intervention aimed at reducing consumption. It sets out what the effect is, how it plays out in the home heating sector, what this implies for energy saving initiatives in this sector, and how it relates to rebound effects in other sectors. The book outlines how the concept of the rebound effect has been developed and the scope of research on it, both generally and particularly in the home heating sector. Various definitions of the rebound effect are considered, in particular the idea of the effect as an energy-efficiency 'elasticity'. The book shows how this definition can be rigorously applied to thermal retrofits, and to national consumption data, to give logically consistent rebound effect results that can be coherently compared with those of other sectors, and allow policy makers to have more confidence in the predictions about potential energy savings.*

## *Mr. Holland on the Rebound*

*This book challenges conventional wisdom by showing how, in some circumstances, improved energy efficiency may increase energy consumption. Relying upon energy efficiency to reduce carbon emissions could therefore be misguided. This book explores the broader implications for climate change and sustainable consumption.*

## *The REBOUND*

*Let's make the "next normal" a "better normal" If there ever was a time for our heroic school leadership to persevere, it's now. Because now, well over one year since the pandemic stretched the resilience and reserves of our school systems, it's time to "rebound." It's time to leverage this once-in-a-lifetime opportunity to reboot teaching and learning as we know it so that we magnify the effective practices from the past while leveraging the so many recent lessons learned. This is where Doug Fisher, Nancy Frey, Dominique Smith, and John Hattie, coauthors of The Distance Learning Playbook series, are ideally equipped to serve as your collaborators. Inside Leading the Rebound: 20+ Must-Dos to Restart Teaching and Learning you'll find immediate actions, mindsets, and approaches to take if we're to reimagine and improve our schools and school systems. What's more Leading the Rebound is backed up with all kinds of resources--including VISIBLE LEARNING(R) research, sample planning tools, and other essential tips and strategies--to provide you with a start-to-finish roadmap for navigating this absolutely critical next leg in our journey toward a "better normal."*

*New York, new guy, new Kelly! After Kelly Bradford's past few years, all she wants is a steady life. She certainly doesn't need the hassle of men or dating after everything she's been through. So she absolutely, categorically should not be fantasizing about Jason Knight, her boss and a man whose very smile screams trouble! But a business trip to New York pushes her resolutions to the max—the adrenaline of the Big Apple has nothing on the excitement Kelly feels around Jason! Maybe a rebound fling is just what she needs to make her feel alive again....*

## *Official Gazette of the United States Patent Office*

*The REBOUND: A Reflective Journey of a Man That Got a Chance at Life's Reset By: Utaff W. Gordon Follow one man's daily reflection about his residential rehabilitation from substance abuse, the relationships developed, and the transformation from having entered into a program with skepticism, distrust, and low self-esteem to becoming more open and realistic about his substance abuse, understanding the things that are TRULY important, and the support mechanisms that have been built to support his continued sobriety. The Rebound details the struggles of a man who has all of the things that a person works toward but that he was not ready for. This took place during a time where mental health had taken a tremendous toll in the pandemic, especially in the minority community. It is even tougher to come to terms with as a Black man in need of THERAPY. All his life he learned that "We are not supposed to have a 'Therapist,' we should figure it out on our own, muscle through." It is the author's hope that his*

*shared experiences in rehab can give some in a similar circumstance hope because there is much to live for. To families or others that have someone they love experiencing the insidious nature of substance abuse, they need to know that as long as they are on this side of the grass... there is hope that their loved one can be truly healed.*

## *Murder on the Rebound*

### *Individuelles Rebound-Verhalten in der Pkw-Mobilität*

*"Hemlock for Herskowitz!" That's what the students write in the law school toilets about Professor Mack Herskowitz. Herskowitz (aka "Jerk-o-Twit") runs his classes like a Marine drill sergeant. He's bedding one budding lawyer -- a former exotic dancer he helped get into the school -- but the rest seem to want him dead. And that's before Herskowitz's mouthiest critic, first-year law student Tony Albinoni, is poisoned in the professor's penthouse. Could that "hemlock" have been meant for Jerk-o-Twit? That's the newest mystery for Amicus, Q.C. (Questing Cat), and his companion human, judge Ted Mariner. All the while, they're in a spot of bother of their own, exiled by the Chief Justice to the Mervin Goldfarb and Estelle Holstein-Goldfarb School of Law at Scarborough University. There was Justice Mariner's very public wrestling match, you see, with Justice Hernando Cactus in the trendy Pasta La Vista restaurant. And then there was that day the not-quite-ancient Mariner passionately smooched his articling student in a rundown bar in the cocaine district. It's classic, uproarious Amicus, scrabbling and bustling with feline twists, turns, and shin's-eye-view witticisms about our justice system in particular and the human tragicomedy in general. Once again, the Falstaffian courthouse cat narrates a seriously funny (and profoundly serious) tale in which the truth is not always what it seems, in death as well as life. "Smart and amusing . . . Amicus has his purr-suasive ways." -- Margaret Cannon, the Globe and Mail*

## *The Rebound Effect*

*A newly single girl. A tall dark handsome stranger. What could go wrong? It's 7 a.m. on a Monday morning and Abby Reynolds isn't where she wants to be. She wants to be in her beautiful loft apartment in Manhattan, drinking a coffee with her fiancé. Instead, she's heading back to the childhood home in rural Ireland she swore she'd never return to, with some big old secrets. Namely that she's suddenly found herself unemployed, homeless, and absolutely 100% single. She's feeling all out of luck. Until the first person she meets after she touches down is an absurdly hot guy called Luke, who offers her a lift home. Gazing deep into his sparkling emerald-green eyes, Abby knows instantly that he's exactly what she needs to take her mind off everything. The perfect rebound. It's a flawless plan. Until the next day, when Abby realizes who he actually is. Not just a stranger. He is, in fact, Luke Bailey, aka the boy next door. Luke Bailey who—so help her God—she's pretty sure she once shared baths with, back when they were kids. Not that she can allow herself to imagine him in a bath now, not without blushing from head to foot. And judging by the smirk on his face, the same Luke Bailey who's known exactly who she was the whole time... And who, like everyone in the village, still thinks she's a high-flying New Yorker... who's getting married next year. Abby is certain getting under Luke will help*

her get over her ex. But the truth is stopping her. Can she admit to everyone back home that she's single and has lost everything? Because, if she wants the boy next door, she may just have to... The perfect feel-good romantic comedy that will make you laugh until you cry and fall completely in love. Fans of Sophie Kinsella, Marian Keyes, and Emily Henry won't be able to put this down! Readers are completely obsessed with *The Rebound*: 'OMG this book was just what I needed... Kept me turning the pages and reading late into the night... It was like drinking a great big warm mug of hot chocolate, I just loved it.' Reading time at the zoo [?][?][?][?][?] 'Had me addicted from page one! I was laughing, crying and swooning from start to finish!... This book has something for everyone – great friendships, family reconciliations and a romance to sweep you off your feet!... Honestly, if Catherine Walsh wrote a menu I'd still read it and rate it five stars I love her storytelling that much!' Ateachersguidetoreading [?][?][?][?][?] 'I really love this book... The HUMOUR!!! The perfect amount of sarcasm, wit, and darkness. Genuinely laughing out loud while reading... Perfect... Honestly, I just love this book. New instant fav — and the perfect read!' Goodreads reviewer [?][?][?][?][?] 'To say I devoured this book is an understatement... I love love love that it's set in a small town in Ireland... A perfect recipe for swooning... I read this book right after *The Hating Game* when I was looking for something to fill the void and it did just that.' @\_bookally\_ [?][?][?][?][?] 'So much heart! I adored this... Luke and Abby have so much great chemistry that I was hanging on every word! The setting in Ireland was just perfect.' Goodreads reviewer [?][?][?][?][?] 'God, oh god, Abby has my heart... The first and only book this year that made me cry when it ended. Even writing this still makes me emotional... I'm in love with this one.' Tales and Lattes [?][?][?][?][?] 'Love, love, love!!!' @inkandpassport [?][?][?][?][?] 'I loved this... So cute and romantic. The men in Irish romcoms are always so swoonworthy and this lived up to that! Highly recommend.' Rainy Day Reads and Coffee [?][?][?][?][?]

## *His on the Rebound*

## *Sustainable Environment and Transportation*

*This book calls for rethinking current climate, energy and sustainability policy-making by presenting new insights into the rebound phenomenon; i.e., the driving forces, mechanisms and extent of rebound effects and potential means of mitigating them. It pursues an innovative and novel approach to the political and scientific rebound discourse and hence, supplements the current state-of-knowledge discussed in the field of energy economics and recent reports by the Intergovernmental Panel on Climate Change. Building on central rebound publications from the past four decades, this book is divided into three main sections: Part I highlights new aspects of rebound economics by presenting insights into issues that have so far not been satisfactorily researched, such as rebounds in countries of the Global South, rebounds on the producer-side, and rebounds from sufficiency behaviour (as opposed to rebounds from technical efficiency improvements). In turn, Part II goes beyond conventional economic rebound research, exploring multidisciplinary perspectives on the phenomenon, in particular from the fields of psychology and sociology. Advancing such multidisciplinary perspectives delivers a more comprehensive understanding of rebound's driving forces, mechanisms, and policy options. Part III puts rebounds into practice and presents several policy cases and sector-specific approaches,*

including the contexts of labour markets, urban planning, tourism, information and communication technologies, and transport. Lastly, the book embeds the issue into the larger debate on decoupling, green growth and degrowth, and identifies key lessons learned for sustainable development strategies and policies at large. By employing such varied and in-depth analyses, the book makes an essential contribution to the discussion of the overall question: Can resource-, energy-use and greenhouse gas emissions be substantially reduced without hindering economic growth?

## *The Rebound Guy*

*Let's make the "next normal" a "better normal" If there ever was a time for our heroic school leadership to persevere, it's now. Because now, well over one year since the pandemic stretched the resilience and reserves of our school systems, it's time to "rebound." It's time to leverage this once-in-a-lifetime opportunity to reboot teaching and learning as we know it so that we magnify the effective practices from the past while leveraging the so many recent lessons learned. *next few months 'finding myself' sexually. This is how The Rebound List came to be. A virgin, a silver fox, a stranger and a threesome- These are the experiences I chose. It's my very own naughty bucket list. A series of challenges set for myself, to figure out what I want out of men and relationships. An excuse to let my hair down, and have a whole lot of fun with zero strings attached. Simple, right? Wrong. Will you join me on my journey? The Rebound List is the first book in L. Moone's Undateables series. This body-positive steamy chick lit novel features a spunky heroine in her twenties, just trying to figure out life and relationships by completing a series of erotic challenges. On her journey of sexual discovery she encounters a plus sized hero who threatens to steal her heart and plenty of naughty antics with multiple partners described in colourful (British English) language. This book ends on a romantic happily ever after. keywords: steamy women's fiction, steamy chicklit, chick lit, erotic, new adult romance, coming of age, sexual awakening, sexual discovery, self discovery, self actualisation, finding yourself, relationships, breakups, infidelity, cheating, sex with multiple partners, sex with strangers, older man younger woman, male virgin, shy hero, plus sized hero, husky hero, regular girl, girl next door, casual sex, strangers to lovers, threesome, mmf, silver fox, sex with boss, sexual bucket list, sexy bucket list, sexual challenges*

## *The Rebound*

*Sophia Becker untersucht in ihrer empirischen Studie, ob technische Effizienzverbesserungen des Autos dazu führen, dass Konsumenten sich ein größeres Auto anschaffen, längere Strecken zurücklegen oder schneller fahren. Die Ergebnisse zeigen, dass solches Rebound-Verhalten lediglich in ganz bestimmten Konstellationen und Motivlagen auftritt. Insgesamt kommt den Effizienzsteigerungen eine erleichternde aber keine kausale Wirkung auf Nachfragesteigerungen zu. Durch ihre verhaltenstheoretische Einbettung und empirische Fundierung leistet die Studie einen wichtigen Beitrag zur sozial-ökologischen Rebound-Forschung.*

## *How a Broken Process Leads to Flawed Regulations*

*This book provides a rough entry into the interdisciplinary field of Infranomics. It enables better decision making in an increasing ambiguous, complex, emergent, interdependent, and uncertain world where we attempt to anticipate modern society trends and patterns in order to react appropriately. However, as with any emerging discipline, much research is needed at the applications and conceptual level. The applications level may require development and testing of methods, tools, and techniques to enable analysis and decision-making in ambiguous, complex, emergent, interdependent, and uncertain conditions while the conceptual level may require tapping into driving philosophies, theories, and methodologies that form the basis for Infranomics. Striking the right balance between applications and conceptual foundation (theory) requires rigorous research. This book provides a springboard for robust discussions on applications, theory, and transformation of current thinking to better deal with modern society's problematic issues using Infranomics.*

## *The Rebound*

*In the small town of Cougar, struggling single mother and veterinary assistant Teresa Lansing is still bruised from a failed relationship when Frank McAllister sweeps her off her feet. Frank is a big-city SWAT officer who moved to Cougar only four months ago. He's handsome, charming, forceful, very sexy, and a bit mysterious. He had his eye on Teresa even before they met and is pushing for a serious relationship right away. Teresa finds his intense courtship flattering, and the sex is fabulous, but she doesn't want her deaf six-year-old son to be hurt again. Her former fiancé cheated on her when he got drunk after being unjustly fired, but he loves her and her son, and the whirlwind romance is complicated by his efforts to win Teresa back. And then there's the matter of the bodies buried at Big Devil Creek...*

## *Report of the Chief of Ordnance*

*The Rebound Effect 1 beschreibt die Firma Rebound Effect und die abenteuerliche Geschichte ihres Mitarbeiters Harry. The Rebound Effect 2 ist die Fortsetzung, in der viele ungeklärte Fragen des 1sten Buches beantwortet werden und die Firma neu aufgebaut wird. Erneut eine spannende Geschichte mit vielen witzigen Details, neuen eigenartigen Figuren und kleinen philosophischen Betrachtungsweisen, die rasant ihrem Höhepunkt entgegensteuert. The Rebound Effect 1 (Kurzzusammenfassung) Jeff Rebound setzt in seiner Firma 'Rebound Effect' auf die Älteren, die keiner mehr auf dem Arbeitsmarkt will. Deren Erfahrung nutzt er geschickt, indem er ihnen dreifache Gehälter zahlt. Dafür entfallen Rentenbeiträge und Krankenversicherung, wer das 65. Lebensjahr erreicht, scheidet aus. Allerdings auch aus dem Leben. Dieses letzte Jahr feiern die Letztjährigen, sogenannte Relienten, in allen nur erdenklichen Ausschweifungen. Ebenfalls scheidet aus, wer 30 Krankheitstage überschritten hat. Das Konzept geht auf. Die Motivation ist hoch und keiner möchte sein ausschweifendes 65. Lebensjahr missen. Bis auf einen: Der Vater von Susan Lauren möchte weiterleben. Die Geschichte beginnt, als Susan das Reboundgebäude betritt, zu einem Vorstellungsgespräch bei Harry Vincent. Der hat bei Rebound Effect eine steile Karriere gemacht und ist Teilnehmer der täglichen 12er-Runde mit dem Firmenboss Jeff Rebound. Susan sieht Harry als letzte Chance ihren Vater, einen Relienten im 10. Monat zu retten. Um das Geheimnis zu lüften wie die Relienten sterben, macht Harry einen Selbstversuch, läßt sich einen Virus pritzen und täuscht dem Reboundarzt Detreu eine Erkrankung vor. Harry zur Seite stehen die mutige Paula und der ängstliche Bloke. Allerdings: Harry wird plötzlich selber zum Gejagten. Ohne recht zu wissen wie ihm geschieht, gelangt er von einem Gefahrenpunkt zum nächsten, immer enger schließt sich der Kreis und nur mühsam lassen sich die einzelnen Puzzleteile des Geheimnisses der Relienten zusammense..*

Suddenly she finds herself married to the wrong man and whisked away on a honeymoon! Rafe*

*has always suspected that there was more to his mousy secretary than meets the eye, and he's right. But as he indulges in exquisite nights little does he know that Shaan is wondering just how ruthless he really is and just how far he went to have her in his bed! Originally published in 1997*

## **Report**

*Some love affairs aren't meant for the public eye. Some love affairs won't survive the fallout. Calliope das Dores is not the perfect rebound, even if her name means "muse". She is not who I should be running to. But I want her anyway. She keeps telling me my squeaky-clean image can't handle the scandal, but this want between us is not black and white, and it never will be. I don't care that she's my uncle's wife—or that she shares my last name. After finding my girlfriend in bed with my uncle at the end of my worldwide tour, the truth is clear: Calliope and I are the only family we both have left now. In the beginning, after flying to the Ozarks to tell her of our partners' sins, I tell myself it's just so she won't hear it from someone who would lie to her. But my manager and best friend say I've wanted her since I was a kid, and now, finally, she is allowed to want me back. She says we can get over them with each other—even if it's in secret, for a summer—but I have to promise her I won't fall in love. It's not part of the plan. The details in our past deny us of any future we could have had. What starts out as a rebound for both of us eventually consumes me. But the flames don't reach her. My muse is consumed, too. But not with me.*

### *Analysis of Decelerator, Accelerator and Shock Cord Propelled Rebound Sleds for Evaluating Air Bag Restraints. Final Report*

*Book one of Getting Physical Plastic surgeon Whitney Vidra knows all about getting over a cheating ex. She followed her boyfriend halfway around the world before she found out about his infidelity. Now she's focusing on her career and her friends, and using men just for single-serving, no-strings fun. Until she meets charming Matt Fuller. Newly single Matt is captivated by the vibrant Whitney, in every way the opposite of his cheating ex-wife. When he confesses to Whitney that he hasn't had sex since his divorce, she volunteers to be his rebound girl. But Matt's not a no-commitment kind of guy—he's either all in, or all out. Whitney is determined to remain attachment-free, but Matt is equally determined to prove to her that what they have is more than just a rebound fling. 94,000 words*

### *The Rebound Guy*

*Das Ziel dieser Arbeit ist die Aufdeckung von existierenden Abhängigkeiten zwischen der Sprunghöhe beim Countermovement Jump (CMJ) und den erzielten Rebounds in Abhängigkeit von den gesamten Reboundversuchen im Basketball. Statistiken im Basketball beweisen, dass mehr als 50% aller Korbwürfe nicht erfolgreich sind, daher ist der Rebound in nahezu jeder zweiten Wurfaktion involviert. Verschiedene Autoren (Gomez et al., 2008 Ibanez et al., 2003 Pojskic, Separovis & Uzicanin, 2009) schreiben dem Rebound zu, dass er ein spielentscheidender Faktor zwischen Sieg und Niederlage ist. Aufgrund des Fehlens von Studien zu den Bereichen Sprungleistung beim CMJ und der Reboundquote lautet die Forschungsfrage dieser Arbeit wie folgt: Existiert ein Zusammenhang zwischen der Sprungleistung beim Countermovement Jump und der Reboundquote in der ersten österreichischen Basketballbundesliga? Zusätzlich will diese Arbeit klären, ob zwischen der Körpergröße und der Reboundquote eine Korrelation vorhanden ist. Die dreiunddreißig Probanden (25,9 ± 3,9 Jahre alt, 199,4 ± 9,7 cm groß, 94,9 ± 12,6 kg schwer) aus fünf Mannschaften der ersten österreichischen Basketballbundesliga in der Saison 2015/16 führten drei Countermovement Sprünge auf der Sprungplatte durch, jedoch wurde nur der beste Wert (Durchschnittlich 45,8 ± 7,1 cm) für die Berechnungen herangezogen. Während des CMJ mussten die Arme der Probanden an der Hüfte bleiben, damit keine schwungunterstützenden Maßnahmen umgesetzt werden konnten. Das Kriterium für die Studienteilnahme war eine Mindestanzahl von Spielminuten, eine Untergrenze an erfolgreichen Rebounds und nicht erfolgreichen Reboundversuchen, um eine Verzerrung der Ergebnisse zu verhindern. Die Reboundquote (0,54 ± 0,12 Prozent) wurde durch die Videoanalyse von 40 Spielen (erfolgreiche Rebounds / (erfolgreiche Rebounds + nicht erfolgreiche Rebounds)) ermittelt. Die*

Ergebnisse dieser Studie offenbaren, dass zwischen dem Countermovement Jump und der Reboundquote kein signifikanter Zusammenhang ( $r=0,214$ ,  $p=0,231$ ) besteht. Weitere Analysen deckten eine negative Korrelation ( $r=-0,321$ ,  $p=0,015$ ) zwischen der Reboundquote und der Körpergröße auf. Das bedeutet für diese Studie, dass kleinere Spieler eine bessere Reboundquote erzielten als große Spieler. Dieses Ergebnis ist zu erklären, indem große Spieler in deutlich mehr Reboundaktionen involviert waren und dadurch eine höhere Anzahl an Reboundversuchen und eine schlechtere Reboundquote erreichten. Für die Zukunft wären daher weitere Studien im Bereich der Antizipation, Positionskampf oder auch Erfahrung im Bezug auf die erfolgreiche Erzielung eines Rebounds im Basketball sinnvoll. \*\*\*\*\*The aim of this thesis is to identify the correlation between the countermovement jump (CMJ) and the rebound quota in basketball. Statistical data confirms that over 50 % of basketball shots miss the target, consequently almost every second play involves a rebound. Previous studies (Pojskic, Sparovic, Uzicanin, 2009 & Gomez et al. 2008) have revealed that the team with a higher rebound rate wins a higher amount of games. Thirty-three ( $25.9 \pm 3.9$  years old,  $199.4 \pm 9.7$  cm tall,  $94.9 \pm 12.6$  kg heavy) basketball players from five different teams were tested during the season 2015/16 in the premiere Austrian basketball league. In order to participate in the study a minimum of played minutes was required, as well as a lower limit for rebounds and rebound attempts. For the evaluation, the sample performed three CMJs ( $45.8 \pm 7.1$  cm) on the Fitronic plate, but only the greatest was relevant for further calculations. In the process the hands had to be placed on the hip. The analysis of the rebound quota (successful rebounds / (successful rebounds + unsuccessful rebound)) was conducted via a video assay of forty season games. The results of the correlation between the countermovement jump and the rebound quota ( $r=0.214$   $p=0.231$ ) indicate no significant impact. Additional analyses of the data reveal a significant negativ correlation between a players height and performance in the CMJ ( $r=-0.321$   $p=0.015$ ). Those results indicate that smaller players exhibit a better rebound quota due to the fact that they were not involved in that many rebound activities than taller players. The tested variables only provide a subarea of those aspects which have an impact on a successful rebound. The variation of the different influential factors limit this study. Further studies are therefore necessary to clearly identify which variables influence the rebound rate.

## Rebound

Demand side management (DSM) is one of the most topical issues in regulating electric utilities, both in the United States and internationally. What is DSM? It consists of various measures at the level of demand (households, commerce, industry, others), which are at least partially financed by electric utilities and which should either conserve energy or reduce the peak load. The practice of DSM originates from The Public Utility Regulatory Policy Act of 1978 (PURPA) that provided the political and legal framework to set energy conservation as a national goal, which encouraged regulatory commissions to initiate utility conservation programs; see e.g., Nowell-Tschirhart (1990) and Fox-Penner (1990). Moreover, integrated resource planning, which must account for DSM on a level playing field with supply, is written into the 1992 Energy Policy Act as the U.S. Government's preferred method of electric power planning. Although PURPA set energy conservation as a national priority, its implementation was left to the states with the consequence of considerable differences concerning efforts and rules. By 1993 16 states had already implemented integrated resource planning, 9 were in the process of doing so and further 9 considered implementation, (EPRI 1993b). Due to the Clean Air Act of 1990, 24

states are considering to include external costs in integrated resource planning.

### *The Rebound List (A Steamy Chicklit Novel)*

*Sleepy Giant - The Rebound Effect 2 Harry und Paula bringen Jeff Rebound auf das Gelände der Pyramide. Aber der dicke Boß ist fast bewegungsunfähig. Er schlägt einen `Deal` vor: Wenn Harry ihm hilft, seinen Körper wieder herzustellen, hilft er im Gegenzug Harry, die 30-Tage-Frist lebend zu überstehen. Einzige Bedingung: Harry soll der neue Boss werden von 'Rebound Effect'. Harry muß sich darauf einlassen um weiterleben zu können, und plötzlich flutscht alles wie von selbst, sogar der angeblich getürmte Arzt Detreu taucht wieder auf, um zusammen mit den Fähigkeiten der Pyramidenbewohner Jeff Rebound zu heilen. Und auch der Neuaufbau des Reboundgebäudes enthält viele trickige Besonderheiten. Paula wendet sich enttäuscht ab. Auch Geisa beobachtet die Wandlung der beiden mit großem Mißtrauen. Als Rebound's Genesung keine rechten Fortschritte machen will, baut ihn She wieder vollständig zusammen. Für kurze Zeit werden Harry und der dicke Boß Freunde. Und dann geht alles Schlag auf Schlag. She hat Rebound ebenso wie Killer einen fingernarben großen Teil aus seinem Rücken entnommen und Jeff Rebound analysiert. Auch She scheint mißgestimmt und läßt sich nicht mehr öffnen. Jeff Rebound wird von Geisa in eine Spiegellabyrinth gesperrt, aber von der Glaszerstörerin Coo Wadda befreit und begibt sich in das Innere von She.*
