Research & Creative - Communication and Culture - Ryerson COVID-19 pandemic in South Korea - Wikipedia
The COVID-19 pandemic in South Korea is part of the worldwide pandemic of coronavirus disease 2019 caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).The first case in South Korea was announced on 20 January 2020. The number of confirmed cases increased on 19 February by 20, and on 20 February by 58 or 70, giving a total of 346 confirmed ...This arises from a broader interest in the ways the nature/society distinction has been produced by alongside the environment-making, world-ecological process of capital accumulation. Parks, as nature in the city, foreground tensions between nature and society. They are developed, maintained, and designed with specific representations of nature
