Beginning with the arrival of the company founder from Germany, this book tells the story of the early years, the rescue of the brand name by the Standard Motor Company following the Second World War and the inspired idea to use the Triumph name on a new sports car - the TR. The Triumph TR cars were built on a minimal budget yet would go on to achieve significant success in motor sport and encompass a range of cars that would remain in one form or another for nearly thirty years. Triumph TR - From Beginning to End gives a complete description of all models, competition success, a study of the derivative models, owners' accounts and living with a TR today. This new book will be of great interest to motoring enthusiasts, historians and particularly fans of Triumph sports cars. Fully illustrated with 220 new colour photographs and 25 archive black & white photographs.

*A fascinating and well-researched look at the British motor industry which will appeal to both academic readers and practitioners alike. Why are there now no major car manufacturers in Britain? Whisler considers this and the surrounding issues, making valuable comparisons with overseas manufacturers operating both in the UK and abroad, which provide us with additional interest and insight. Based upon careful use of company archives, this book covers in particular the issues of product development, quality, design, and range, ensuring that The British Motor Industry is destined to make a distinctive contribution to our understanding of the performance of UK manufacturers.*

*Originally published in 1938, the primary object of this book was to place on record, for the information and guidance of government officials and of the Tswana themselves, the traditional and modern laws and related customs of the Tswana tribes of the Bechuanaland Protectorate. The author was invited in 1934 by the Administration of the Protectorate to undertake the compilation of such a record and the book does not pretend to give a complete account of Tswana life, but deals only with those aspects which may be regarded as falling within the province of tribal law.*

[Chilton's New Repair and Tune-up Guide for the Triumph Motorcycle](#)

*Short fiction, plus three essays, by the New York Times–bestselling author—including a Hugo Award–winning novella. Harry Turtledove earned the title “master of alternate history” from Publishers Weekly for his thought-provoking novels that turn historical facts into gripping tales of possibility. But his writing talent goes much further. We Install offers a showcase of styles, from humor—in “Father of the Groom,” a scientist with a penchant for wild experimentation helps his love-struck son by synthesizing a wedding ring out of two carrots—to classic science fiction, as in the Hugo Award–winning “Down in the Bottomlands” and “Hoxbomb,” in which a regular guy just trying to make a living selling scooters has to deal with some very odd competition. The alternate history tale “Drang von Osten” begins on a bloody battlefield in World War II and ends somewhere quite different. In the brand-new “Logan’s Law,” a man discovers that sometimes, second chances really do work out. The book’s three essays tackle the diverse subjects of how to write alternate history, Tolkien’s *The Lord of the Rings*, and the history of Chanukah. We Install will delight longtime Turtledove fans and new readers alike with its rich offerings from one of the finest craftsmen writing today.*
